The following motion is presented by Trustee Scott-Hayes:
Authorize and direct the District staff and applicable consultants to investigate and develop potential legislation in the areas identified. After the initial investigation of the viability of these areas, the Legislative Affairs Committee will make a recommendation to the Board of Trustees regarding legislation to be sponsored by the District.

1. Advanced Education – Legislation that would ease obstacles to offering college courses to K-12 students by community colleges by waiving open access mandates and the requirement of public notice for classes at K-12 institutions.

2. Pass-Through Cost for Public Records – Legislation that would provide an option for the member of the public to pay for costs on a pass-through basis to expedite access on open records requests that would require more than 120 hours of staff time to locate and review.

Withdrawn.

3. Design Assist – Legislation that would provide for an alternative means of project delivery authorizing the district to engage the services of contractors early in the process to design a project collaboratively.

4. Change Order Clarification – Legislation that would maintain the 10% change order limit, but allow additive and deductive change orders to be netted to allow appropriate changes to be handed by the original contractor.

5. Best Value Procurement – Legislation that would provide the ability to structure a competitive bid process that recognizes characteristics other than price, such as life-cycle costs, sustainability characteristics, and efficiency.

6. Job Order Contracting – Legislation that would allow for the contracting for minor construction, repair, and rehabilitation of facilities in which one or more contractors agree to a contract for a fixed period with a fixed unit price, but an indefinite quantity.

7. Financial Aid – Legislation that would provide for a decentralized mechanism for distribution of financial aid for students.

8. Energy – Legislation that would reinforce the availability of SB 1 funds in conjunction with federal tax credits.

Background: The Legislative Affairs Committee met in September and October to consider a potential legislative agenda for the District. The committee determined to recommend further pursuit of the viability of the measures listed above, prior to making a commitment to the sponsorship of legislation.
