  - B. Legislative Proposals
    - *Best Value* – Under this proposal, community colleges would be authorized to use best value rather than simple low bid, in the purchase of equipment, materials, and supplies. Under current law, community college districts are limited to lowest bid in their purchasing; this proposal would provide greater flexibility for districts to purchase higher quality products.
    - *Student Success Taskforce Recommendations* – Next Steps in Legislative Process
    - *Instant Runoff* – Under this proposal, the Los Angeles Community College District Board elections would not contain a runoff. Instead, the candidate with the highest vote total would win the seat. Under current law, if a candidate receives less than 50 percent of the vote, then the top two vote-getters enter a runoff.

This proposed legislation, instead, would require only one round of voting and save the District the funds associated with running another election.
