The minutes of the February 24, 2017 meeting were reviewed and approved.

Review Draft DSP Goals:

The committee continued the review of the draft goals and objectives. The committee reviewed each goal area and was focused on clarifying the wording of objective, ensuring that they were ordered correctly, and were placed within the most appropriate goal area. To achieve consistency, Sheri suggested rewording several objectives so that they begin with an improvement phrase. The draft District Strategic Plan alignment, which shows the proposed metrics in the DSP, was also referenced to better understanding how measures would be applied to each objective. All changes will be reviewed and finalized at the next meeting.

The task of developing metrics for the DSP was delegated to the District Research Committee and input is currently being collected. The proposed metrics and suggestions will reviewed in detail at the next DPC.

Finalize Evaluation of 2012-17 DSP:

Maury noted that data for some objectives has not been consistently available over the complete plan period, thereby not permitting an overall evaluation of some objective. Sheri suggested, and the committee agreed, that for the purpose of completeness, the DSP evaluation needed to include all relevant outcome measures for Goals 3 and 4. Maury will assemble data elements for review by the committee at the next meeting.
