

Noncredit CORs Folder

This folder contains course outlines of record (CORs) for noncredit courses in the Los Angeles Community College District (LACCD). **This is NOT the system of record for said CORs***, but rather a repository so that LACCD colleges may use existing curriculum at other district colleges when developing their own curriculum.

*Currently, the Electronic Curriculum Development (ECD) system is the system of record for all courses in the LACCD. Though it is not fully functional with regard to noncredit courses, it still contains information about the status of all noncredit courses (if not the CORs themselves).

CORs in the folder shall be titled as follows: SUBJECT ABBREVIATION_3-DIGIT NUMBER SUFFIX_COLLEGE ABBREVIATION_YYMMDD [when the COR was uploaded to this folder]. Note: the subject abbreviation will match that defined in ECD, for example *ACAD_PR*, not *ACAD_PREP*, or *ESL_NC*, not *ESLNC*. Also, the suffix (*CE* or *T*, for example) shall be added as it is approved in ECD.

LACCD Colleges wishing to have their noncredit CORs (or updated versions of them) posted here should have their Curriculum Committee Chair or designee submit them via district email to "DO Curriculum." As time permits, DO Curriculum personnel will upload them to the folder. Older versions will be removed as newer versions are posted.
