

**Request for Proposal
Addendum 1
Los Angeles Community College District
Facilities Planning & Development
February 25, 2022**

Revised deadline for proposals shall be 2 pm on March 4, 2022. Proposals shall be emailed to hovasaa@laccd.edu and padillfo@laccd.edu. Previous deadline was 2 pm on February 28, 2022.

Questions received from potential bidders, followed by answers by LACCD:

1. Is the upgrade from Ax to N4 required for 10 supervisor licenses residing on virtual servers: 1 District Aggregate Supervisor & 9 College Supervisors?
 - Answer: Yes
2. Are there 9 legacy jaces requiring upgrades from 3.x to 3.8 firmware: 1 at each of 9 Colleges?
 - Answer: Yes
3. Tridium no longer sells the SMA upgrade licenses for legacy jaces. If proposer does not have the jace SMA upgrade licenses in their inventory, are they required to replace the Jace hardware at each college campus with Jace 8000 hardware for each location and include necessary device licensing and database transfers in order to meet project requirements?
 - Answer: Yes
4. The M&DR system currently uses cloud-hosted skyspark points hosted by a 3rd party:
 - a. Does the district want to include purchasing skyspark licensing for the M&DR to reside on their Virtual Servers and migration of the approximately 7 years of data to a district-hosted platform as part of this bid proposal?
 - Answer: Yes, please provide pricing for this item on a separate line-item as an add alternate
 - b. Alternatively, does the district want to include cloud hosting of the M&DR data and skyspark interface as part of this proposal? If so:
 - for what term shall the support services be in required?
 - What additional labor is to be included to support calls/questions?
 - Answer: LACCD does not wish to include this alternative (in question 4.b) in this scope of work
