INTRODUCTION

OFFICE OF THE CHANCELLOR

December 7, 2016

Members of the Board of Trustees
Los Angeles Community College District

Dear Board of Trustees:

I have reviewed and am pleased to submit the Annual Financial Report of the Los Angeles Community College District (District) for the fiscal year ended June 30, 2016. This report is presented in six sections, which include an introduction, the Independent Auditors' Report, the Management's Discussion and Analysis, the Basic Financial Statements, the Supplemental Financial Information, and Other Supplemental Information as noted in the table of contents. The report includes all Funds of the Los Angeles Community College District as well as those of student organizations.

The introductory section contains my remarks to the Annual Financial Report and a brief summary of the District's employment and enrollment. The Independent Auditors' Report provides the auditors' opinion of the audit. The Management's Discussion and Analysis provides the management information and analysis on the District's financial changes and condition for the year. The basic financial statements include the three financial statements, as well as the notes to the basic financial statements. Supplementary information include the combined and individual funds and account group financial statements and schedules, a description of the organization of the District, a schedule of full-time equivalent students and apprenticeship clock hours, and a reconciliation of the financial statements to the District's governmental funds. Also included in this section are the independent auditors' reports on the internal accounting and administrative controls of the District as well as the state and federal compliance required by the California State Department of Finance and the Single Audit Act of 1984. The final section provides the current year's audit findings and recommendations as well as the implementation status of the auditors' prior year recommendations.

The District is responsible for the accuracy, completeness, and fairness of the financial statements, including all disclosures. We believe that the data presented are accurate in all material respects and present fairly the financial activities of the District's various funds, and that the informative disclosures are sufficient to provide an understanding of the District's fiscal affairs. The auditors' opinion included in the annual report reflects our belief.

The District and its nine campuses provide a broad range of educational services to students within the Los Angeles area. The nine Los Angeles community colleges comprise one of the nation’s largest community college systems—the result of a movement, which had its beginning in the California State Legislature in 1907, the year the Caminetti Bill was passed, permitting high schools to offer postgraduate courses. The Ballard Act of 1917 and the Deering Act of 1929 assured financial support for the state’s community colleges.

In March 1931, a separate Los Angeles Junior College District was created and granted a taxing power of its own and was designed to serve a larger area than the city. The Board of Education and the Superintendent of Los Angeles County Schools assumed administrative control of the District. Due to the dramatic expansion during the post-war period, the state’s two-year junior colleges were moved away from the secondary education system and into higher education. In 1967, Governor Reagan authorized establishment of a Board of Governors for the California Community Colleges. In that same year, legislation passed which provided for a separate community college Board of Trustees and administration. The first Trustees of the Los Angeles Community College District were sworn into office on July 1, 1969.

The Los Angeles Community College District serves approximately 233,324 students, employs approximately 3,838 full-time and 6,551 part-time personnel and covers a service area of more than 882 square miles.

Enrollment

The Los Angeles Community College District’s enrollment for the fiscal year ended June 30, 2016 decreased by 1.2% from previous year.

The enrollment figures (credit student headcount) by campus for the 2015-16 fiscal year were as follows:

| | <u>Fall</u> | <u>Spring</u> |
|-------------------------------------|----------------|----------------|
| East Los Angeles College | 28,093 | 27,452 |

Independent Auditors' Report

The Honorable Board of Trustees
Los Angeles Community College District:

Report on the Financial Statements

We have audited the accompanying financial statements of the Los Angeles Community College District (the District), which comprise the statements of net position as of and for the year ended June 30, 2016 and 2015, and the related statements of revenue, expenses, changes in net position and cash flows for the years then ended, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Los Angeles Community College District as of June 30, 2016 and 2015, and the changes in its financial position and its cash flows for the years then ended in accordance with U.S. generally accepted accounting principles.

Emphasis of Matters

As discussed in note 2 to the financial statements, effective July 1, 2015, the District adopted the provisions of Governmental Accounting Standards Board Statement No. 72, *Fair Value Measurement and Application*. Effective July 1, 2014, the District adopted the provisions of Governmental Accounting Standards Board Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*, and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68*. Our opinion is not modified with respect to these matters.

Other Matters

Required Supplementary Information

U.S. generally accepted accounting principles require that the management’s discussion and analysis on pages 4–14, the schedule of postemployment benefits funding progress and employer contributions on page 50, and the schedule of the District’s proportionate share of the net pension liability and schedule of the District contributions on page 51, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Management’s discussion and analysis does not include a discussion of 2015 information that U.S. generally accepted accounting principles require to supplement, although not required to be part of, the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplemental and Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District’s basic financial statements. The accompanying supplemental financial information on pages 52–69 and the reconciliation of governmental funds to the statements of net position on page 73, which is presented based on the requirements of the *Contracted District Audit Manual issued by the California Community Colleges Chancellor’s Office*, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying supplemental financial information and the reconciliation of governmental funds to the statement of net position is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplemental financial information and the

reconciliation of governmental funds to the statement of net position is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The other supplemental information on pages 70–72 and 74–84, has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 7, 2016 on our consideration of the District’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District’s internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

LOS ANGELES COMMUNITY COLLEGE DISTRICT

Management's Discussion and Analysis

June 30, 2016 and 2015

This section presents Management's Discussion and Analysis (MD&A) of the Los Angeles Community College District's (the District) financial activities for the fiscal year ended June 30, 2016. The MD&A has been prepared by management and should be read in conjunction with the basic financial statements and the notes thereto, which follow this section.

Financial Highlights

- The assets of the District exceeded its liabilities as of June 30, 2016 by \$407.9 million (net position). Of this amount, a net deficit of \$381.3 million is unrestricted net position. This includes a one-time adjustment of \$475.6 million during FY 2015 due to the implementation of GASB 68, Accounting and Financial Reporting for Pensions. The \$315.5 million (restricted net position) may be used for the District's ongoing obligations related to programs with internal and external restrictions. The remaining component of the District's net position represents \$472.7 million of net amounts invested in capital assets.
- The District's investment in capital assets (net of depreciation) increased by \$169.5 million during the year ended June 30, 2016 due to construction activity.
- The District's total noncurrent liabilities increased by \$50.1 million during the fiscal year ended June 30, 2016.

Overview of the Basic Financial Statements

The District follows the financial reporting guidelines established by the Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, and GASB Statement No. 35, *Basic Financial Statements – and Management's Discussion and Analysis – for Public Colleges and Universities – an amendment of GASB Statement No. 34*. These statements require the District to report its basic financial statements at an entity-wide level under the business-type activity-reporting model. This MD&A is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements include four components: (1) statements of net position; (2) statements of revenue, expenses, and changes in net position; (3) statements of cash flows; and (4) notes to basic financial statements. This report also contains other supplemental information in addition to the basic financial statements themselves.

The statements of net position represents the entire District's combined assets, deferred outflows of resources, liabilities, deferred inflows of resources and net position, including Associated Student Organization's financial information. Changes in total net position as presented on the statements of net position are based on the activities presented in the statement of revenue, expenses, and changes in net position. The statement of revenue, expenses, and changes in net position represents the revenue received, operating and nonoperating, and any other revenue, expenses, gains, and losses received or spent by the District. The statement of cash flows presents detailed information about the cash activities of the District during the year. The purpose of these basic financial statements is to summarize the financial information of the District, as a whole, and to present a long-term view of the District's finances.

LOS ANGELES COMMUNITY COLLEGE DISTRICT

Management's Discussion and Analysis

June 30, 2016 and 2015

Statements of Net Position

The statement of net position presents the assets, liabilities, and net position of the District as of the end of the 2016 and 2015 fiscal years. The statement of net position is a point-in-time financial statement. The purpose is to present to the readers of the basic financial statements a fiscal snapshot of the District. The statements of net position presents end-of-year data concerning assets (current and noncurrent), deferred outflow of resources, liabilities (current and noncurrent), deferred inflow of resources, and net position. From the data presented, readers of the statements of net position are able to determine the assets available to continue the operations of the institution. Readers are also able to determine how much the institution owes vendors, investors, and lending institutions.

Finally, the statement of net position provides a picture of the net position and their availability for expenditure by the institution. Net position is divided into three major categories. The first category, net investment in capital assets, provides the institution's equity in property, plant, and equipment owned by the institution. The second category is restricted net position, which is divided into two categories, nonexpendable and expendable. The corpus of nonexpendable restricted resources is only available for investment purposes. Expendable restricted net position is available for expenditure by the institution but must be spent for purposes as determined by donors and/or external entities that have placed time or purpose restrictions on the use of the assets. The final net position category is unrestricted. Unrestricted net position is available to the institution for any lawful purpose of the institution.

Statement of Revenue, Expenses, and Changes in Net Position

Changes in total net position as presented on the statements of net position are based on the activities presented in the statements of revenue, expenses, and changes in net position. The purpose of these statements is to present the revenue received by the District, operating and nonoperating, and any other revenue, expenses, gains, and losses received or spent by the District.

Generally speaking, operating revenue is received for providing goods and services to the various customers and constituencies of the institution. Operating expenses are those expenses paid to acquire or produce the goods and services provided in return for the operating revenue and to carry out the mission of the District. Nonoperating revenue is revenue received for which goods and services are not provided. For example, state appropriations are nonoperating because they are provided by the Legislature to the institution without the legislature directly receiving commensurate goods and services for those revenues.

Management's Discussion and Analysis

June 30, 2016 and 2015

Financial Analysis of the District as a Whole

As of June 30, 2016, the District's net position increased by \$69.4 million from \$338.5 million at June 30, 2015 to \$407.9 million at June 30, 2016. Current and other assets decreased by \$312.5 million and capital assets increased by \$169.5 million. Deferred outflow of resources increased by \$48.2 million. Current liabilities decreased by \$154.0 million and noncurrent liabilities increased by \$50.1 million. Deferred inflow of resources decreased by \$60.2 million.

In fiscal year 2016, the District added \$266.5 million of capital assets, capitalized interest of \$36.6 million and depreciated \$133.6 million of capital assets. See further discussions in Capital Assets and Debt Administration at page 12 for additional detail.

Current and other assets decreased \$312.5 million. The net decrease is due in part to the following:

- (1) \$274.9 million decrease in restricted investments is primarily due to a lack of new debt issuances.

LOS ANGELES COMMUNITY COLLEGE DISTRICT

Management's Discussion and Analysis

June 30, 2016 and 2015

- (2) \$127.6 million decrease in deposit with trustee is primarily due to increased G.O. bond principal payments made compared to fiscal year 2015.
- (3) \$99.2 million increase in cash and cash equivalents is primarily due to cash collections from the District's nine campuses as well as increased funding for State Mandate Costs and Student Success Support Program (SSSSP).

Deferred outflows of resources increased by \$48.2 million. The net increase is due to the following:

- (1) \$57.3 million increase in deferred outflows of resources caused by changes in the District's proportionate share of the CalPERS and CalSTRS pension obligation, the District's contributions after the measurement date and the difference between expected and actual experience in the pension experience.
- (2) \$9.1 million decrease in deferred outflows of resources is related to the amortization of deferred outflow of resources caused by the G.O. Bonds refunded during the year ended June 30, 2015.

Current liabilities decreased \$154.0 million. The net decrease is due in part to a decrease in current portions of long term debt is primarily due to decreased principal payments on 2015 Series A, G and H G.O. bonds compared to prior year.

Noncurrent liabilities increased by \$50.1 million. The net increase is due in part to the following:

- (1) \$121.4 million increase in pension obligations due to changes in actuarially determined pension liabilities.
- (2) \$14.6 million increase in other post-employment benefit (OPEB) obligations due to changes in actuarially determined pension liabilities.
- (3) \$85.4 million decrease in the noncurrent portion of long term debt is primarily due to principal payments on the District's G.O. Bonds.

Deferred inflows of resources decreased by \$60.2 million. The net decrease is due to changes in CalPERS and CalSTRS investment earnings, changes in assumptions used, and District proportionate share.

Net position increased by \$69.4 million. The net increase is due in part to the following:

- (1) \$131.1 million increase in net investment in capital assets due to construction activity.
- (2) \$123.9 million decrease in expendable restricted net position is primarily due to changes in upcoming debt service payment and charges for other special purposes.
- (3) \$62.1 million increase in unrestricted fund balance is due to net revenue resulting from operational activities.

Management’s Discussion and Analysis

June 30, 2016 and 2015

The summary of revenue, expenses, and net position reflects an increase of \$69.4 million in net position at the end of the year as explained below.

Operating revenue increased \$6.6 million. The net increase is due in part to the following:

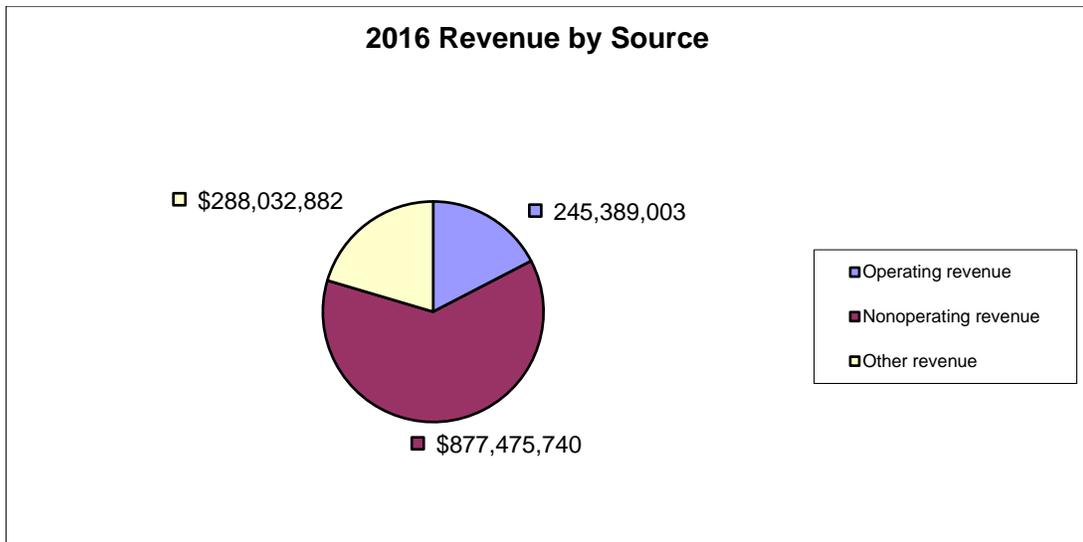

- (1) \$2.2 million decrease in noncapital Federal Grants and Contracts primarily due to decrease in funding for Higher Education Act and Vocational Education programs.
- (2) \$25.8 million increase in noncapital State Grants and Contracts primarily due to increase in funding for state programs including SSSP (\$20 million), Extended Opportunity Programs and Service (\$2 million) and Cal Grant (\$3 million).
- (3) \$17.6 million decrease in noncapital Local Grants and Contracts is primarily due to several one-time revenues received during fiscal year 2015. These items include a \$5 million grant from Southern California Edison and a \$4.3 million legal settlement received.

Other revenue decreased by \$18.6 million. The net decrease is due in part to the following:

- (1) \$16.2 million decrease in Local tax for G.O. Bonds related to property taxes levied for District’s debt issuances.
- (2) \$2.5 million decrease in State Apportionment for capital purposes due to revised budget by the state.

Nonoperating revenue increased by \$128.2 million. The net increase is due in part to the following:

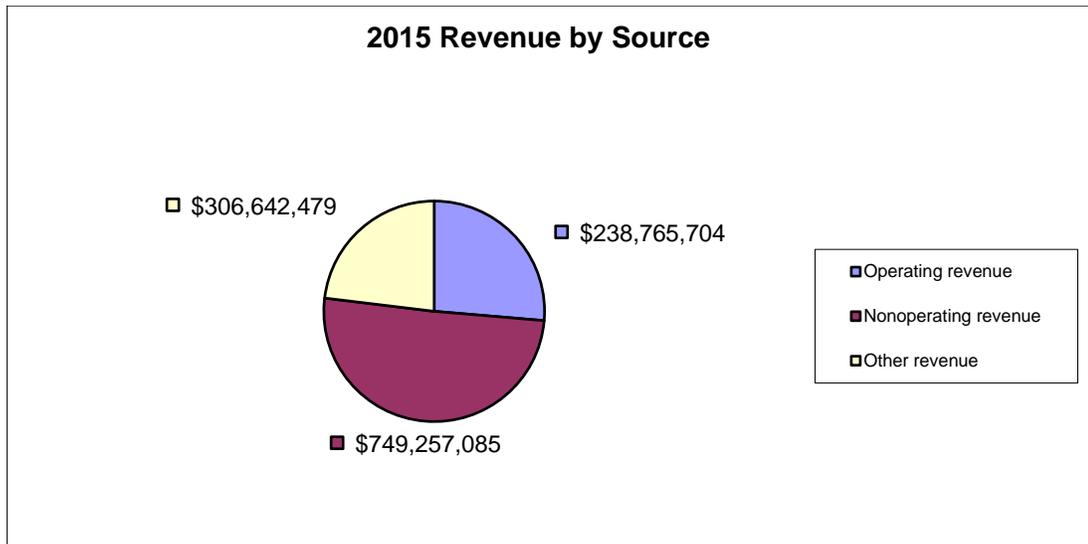

- (1) \$109.9 million increase in State apportionment revenue due to \$39 million increase in general apportionment allocation and a one-time \$57 million Mandated Cost receipt from the State.
- (2) \$16.6 million increase in Local Property Tax revenue due to increase in LA County property values which increased the basis for taxation.

Management's Discussion and Analysis

June 30, 2016 and 2015

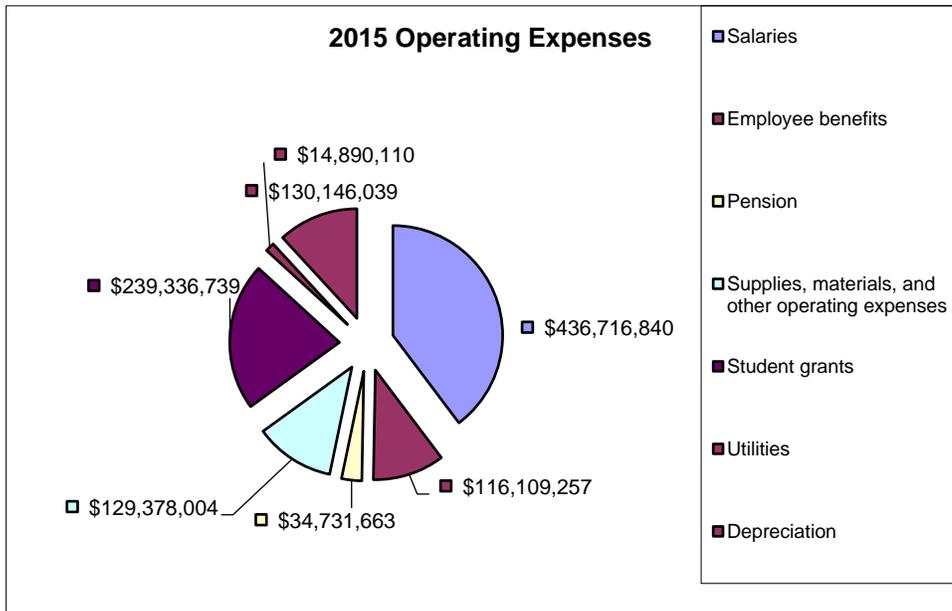

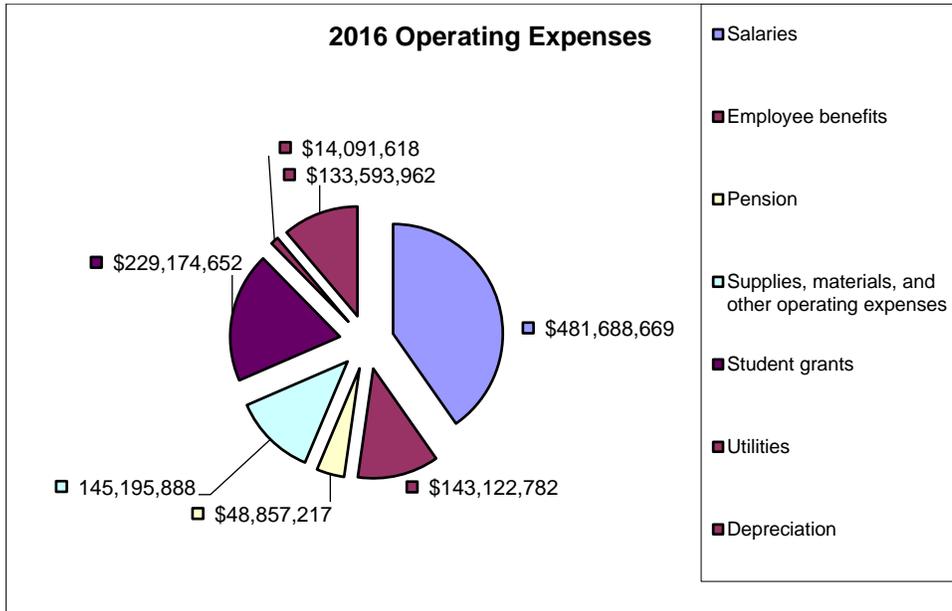

Operating expenses increased \$94.4 million. The net increase is due in part to the following:

- (1) \$45.0 million increase in salary expenses and benefit expense primarily due to adjustments to salaries, as well as hiring of additional full and part time staff.
- (2) \$27.0 million increase in employee benefits primarily as a result of 88 full time and 207 part time personnel, increase in healthcare rates and increase in benefit premiums.
- (3) \$14.1 million increase in pension expenses due to additional actuarially determined pension liabilities.
- (4) \$15.8 million increase in supplies, materials, and other operating expenses due to additional expenses incurred in deferred maintenance as well as professional services related to the District's PeopleSoft implementation.
- (5) \$10.2 million decrease in student grants expense due to reduction in the number of Federal Financial Aid applications.

Management's Discussion and Analysis

June 30, 2016 and 2015

Nonoperating expenses increased \$23.0 million. The net increase is due in part to the following:

- (1) \$28.9 million increase in interest expense on capital asset due to increase in the interest due on G.O Bonds.
- (2) \$5.9 million decrease in other nonoperating expenses is due to a general apportionment adjustments during FY 2015 that did not occur in FY 2016.

Capital Assets and Debt Administration

Capital Assets

The District's investment in capital assets as of June 30, 2016 and 2015, totaled \$4.29 billion and \$4.12 billion, respectively (net of accumulated depreciation). This investment comprises a broad range of capital assets including land, buildings, construction in progress, works of art, infrastructure and land improvement, and furniture and equipment. The following schedules summarize the District's capital assets as of June 30, 2016 and 2015:

Capital Assets, Net

| | Balance at June 30 | |
|-------------------------------|---------------------------|---------------|
| | 2016 | 2015 |
| Land | \$ 198,750,248 | 198,683,775 |
| Land improvements | 434,920,342 | 427,190,686 |

| Construction in progress | 646,996,098 | 709,837,719 |
| Works of art | 518,000 | 518,000 |
| Furniture and equipment | 118,769,285 | 111,267,723 |
| Infrastructure | 7,127,341 | 7,129,426 |
| Total | 5,292,849,639 | 4,989,987,703 |
| Less accumulated depreciation | (998,472,932) | (865,110,227) |
| Net capital assets | \$ 4,294,376,707 | 4,124,877,476 |

In fiscal year 2016, the District added \$266.5 million of capital assets, capitalized interest of \$36.6 million and depreciated \$133.6 million of capital assets. During the year ended June 30, 2016, the District's investments in facility master plans, construction, and building improvements increased due to funding from Proposition A, Proposition AA, and Measure J Bonds. The District had a significant number of ongoing building projects funded from Proposition A, Proposition AA, and Measure J bond money.

In April 2001, the District became the first community college district in the State to pass a property tax financed bond, Proposition A, under the new requirements of the Strict Accountability in Local School Construction Act of 2000. Valued at \$1.245 billion, the District's Proposition A Bond Construction Program stands as one of the largest community college bonds ever passed in California. The bond measure was designed to implement a capital improvement program for each of the nine colleges within the District.

In May 2003, the voters passed another G.O. Bond, Proposition AA, for \$980 million. The bond measure was designed to finance construction, building acquisition, equipment, and improvement of college and support facilities at the various campuses of the District and refinance other outstanding debts of the District and colleges.

In November 2008, the voters passed another G.O. Bond, Measure J, for \$3.5 billion. The bond measure was designed to finance additional construction, building acquisition, equipment, and improvement of college and support facilities at the various campuses of the District.

Management's Discussion and Analysis

June 30, 2016 and 2015

The District is in the fifteenth year of Proposition A, the thirteenth year of Proposition AA, and the eighth year of the Measure J Bond construction programs. Approximately, \$4.6 billion has been spent to date for Proposition A, Proposition AA, and Measure J Bonds combined for several capital projects at all nine colleges and to refinance outstanding debt (Certificates of Participation Notes) at both the District and colleges. The District anticipates completion of these capital projects by the year 2020. The District has issued to date all the authorized amounts of Proposition A and Proposition AA Bonds, and \$2.225 billion of the Measure J authorization amounts.

Long Term Debt

At June 30, 2016 and 2015, the District had \$3.7 billion and \$3.9 billion in long-term debt, respectively. The District's long-term debt decreased during the year ended June 30, 2016, primarily as a result of principal payments made on outstanding G.O. Bonds.

Management's Discussion and Analysis

June 30, 2016 and 2015

Economic Factors

On June 26, 2016, the Governor signed a balanced state budget (SB826/SB828) providing California Community Colleges with an increase in state funding. The 2016-2017 State Adopted Budget of \$7.8 billion for California Community Colleges represents a 4% year-over-year funding increase. The budget includes funding to increase access to college by 2%, an increase to base funding of \$75 million and \$105.5 million of state mandated cost reimbursements to pay down outstanding claims. While the budget did not include any COLA increases, it does provide additional funding for workforce preparation/career and technical education as well as funds for physical plant and instructional support. Funding for the Education Protection Act (EPA) will continue due to the passage of Proposition 55 in November 2016 of which the District received \$86 million for the 2016-17 fiscal year. With the improved State economy, the State continues to invest in community colleges with increased funding for student support.

The District Board of Trustees authorized placing a \$3.3 billion facilities bond Measure CC titled, the "Affordable Education/Job Training/Classroom Safety Measure" on the November, 2016 ballot that was also passed by the voters in November 2016.

Student Enrollment and State Funding

The student enrollment fee remains at \$46 per unit in 2016-17. The State provided 2% or \$114.7 million enrollment growth for apportionments for California Community Colleges. The District will receive \$10.7 million in enrollment growth revenue for the 2016-17 fiscal year.

The District plans to achieve 2.0% enrollment growth in fiscal year 2016-17.

We are cautioned to keep in mind the required contribution for California Public Employees' Retirement System and California State Teachers' Retirement System will increase from \$33.3 million for the year ended June 30, 2016 to \$70.2 million for the year ended June 30, 2021. These increased contributions will claim a growing share of local operating funds, however, the District has reserved financial resources to fund the increases in these employer contributions through June 30, 2021.

LOS ANGELES COMMUNITY COLLEGE DISTRICT

Notes to Basic Financial Statements

June 30, 2016 and 2015

(1) Organization and Reporting Entity

The Los Angeles Community College District (the District) is a political subdivision of the State of California (the State) and is located within the County of Los Angeles, California (the County). The District's operations consist principally of providing educational services to the local residents of the District. In conjunction with educational services, the District also provides supporting student services such as the operation of campus bookstores and cafeterias. The District consists of nine community colleges located within the County.

For financial reporting purposes, the District includes all funds that are controlled by or dependent on the District's board of trustees. The District's basic financial statements include the financial activities of the District and the totals of the trust and agency funds, which primarily represent Associated Student Organizations and amounts for scholarships within the District. Associated Student Organizations are recognized agencies of the District and were organized in accordance with provisions of the California Education Code to control the administration of student funds. The financial affairs of the Associated Student Organizations are administered under the direction of the college financial administrators at the respective colleges, with the supervision and guidance of the District's deputy chancellor.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The basic financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

(b) Financial Reporting

The basic financial statements required by Governmental Accounting Standards Board (GASB) Statement No. 35, *Basic Financial Statements – and Management's Discussion and Analysis – for Public Colleges and Universities – an amendment of GASB Statement No. 34*, and Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis – for State and Local Governments*, include a statement of net position; a statement of revenue, expenses, and changes in net position; and a statement of cash flows. The District is considered a special-purpose government under the provisions of GASB Statement No. 35. Accordingly, the District has chosen to present its basic financial statements using the reporting model for special-purpose governments engaged only in business-type activities. This model allows all financial information for the District to be reported in a single column. In accordance with the business-type activities reporting model, the District prepares its statements of cash flows using the direct method. The effect of internal activities between funds or groups of funds has been eliminated from these basic financial statements.

(c) Net Position

The District's net position is classified into the following categories:

Net Investment in Capital Assets: Capital assets, net of accumulated depreciation and outstanding principal balances of debt attributable to the acquisition, construction, or improvement of those assets.

LOS ANGELES COMMUNITY COLLEGE DISTRICT

Notes to Basic Financial Statements

June 30, 2016 and 2015

Restricted Expendable: Subject to externally imposed conditions that can be fulfilled by actions of the District or by the passage of time. Net position may be restricted for such things as capital projects, debt repayment, escrow accounts, and/or educational programs.

Restricted Nonexpendable: Subject to externally imposed conditions where the principal portion of net position is not to be expended for any reason. Only interest earned by the principal portion can be expended on purposes designated by the externally imposed conditions.

Unrestricted: Unrestricted net position is not subject to externally imposed constraints. Unrestricted net position may be designated for specific purposes by action of the board of trustees or may otherwise be limited by contractual agreements with outside parties. When both restricted and unrestricted resources are available for use, it is the District's practice to use restricted resources first and the unrestricted resources when they are needed.

(d) Cash and Cash Equivalents

The District participates in the common investment pool of the County. The investment pool is reported at fair value. For purposes of the statements of cash flows, the District considers all cash and a portion of the investments pooled with the County plus any other cash deposits or investments with initial maturities of three months or less to be cash and cash equivalents.

(e) Inventory

Bookstore, cafeteria, and supply inventories are recorded at cost on the first-in, first-out basis and expended on the consumption method.

(f) Properties and Depreciation

Properties are carried at cost or at appraised fair market value at the date received in the case of properties acquired by donation, less allowance for accumulated depreciation. Depreciation is computed by use of the straight-line method over the estimated useful lives of the assets.

Current ranges of useful lives for depreciable assets are as follows:

| | |
|------------------------------------|--------------|
| Land improvements | 15 years |
| Buildings | 50 years |
| Building improvements | 20 years |
| Furniture, fixtures, and equipment | 3 to 7 years |
| Vehicles | 5 years |
| Infrastructure | 15 years |
| Leasehold improvements | 7 years |

The District's capitalization threshold is as follows:

| | |
|-------------------------------------|--------------------|
| Movable equipment | \$ 5,000 and above |
| Land, buildings, and infrastructure | 50,000 and above |

LOS ANGELES COMMUNITY COLLEGE DISTRICT

Notes to Basic Financial Statements

June 30, 2016 and 2015

(g) *Accrued Employee Benefits*

The District has reported for vacation leave benefits that have been earned as a liability within the statements of net position. Accumulated sick leave benefits are not reported as liabilities of the District. The District's policy is to record sick leave as an operating expense in the period taken since such benefits do not vest.

(h) *Unearned Revenue*

A majority of the unearned revenue balance represents cash collected in advance for tuition and student fees and will be recognized as revenue in the period in which it is earned.

(i) *Operating Revenue and Expenses*

The District's operating revenues include tuition fees, and federal and state revenue. Operating costs include cost of services as well as materials, contracts, personnel, and depreciation.

Nonoperating revenues include state apportionments, property taxes, and grants. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

(j) *Income Taxes*

The District is a political subdivision of the State and is treated as a governmental entity for tax purposes. As such, the District is generally not subject to federal or state income taxes. However, the District remains subject to income taxes on any net income that is derived from a trade or business regularly carried on and not in furtherance of the purpose for which it was granted exemption. No income tax provision has been recorded as the net income, if any, from any unrelated trade or business, in the opinion of management, is not material to the financial statements taken as a whole.

(k) *Estimates*

The preparation of basic financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, revenue, and expenses in the accompanying basic financial statements. Actual results could differ from those estimates.

(l) *New Accounting Standards*

(i) *Implemented in Fiscal Year 2016*

In February 2015, the GASB issued, and the District adopted the provisions of, Statement No. 72, *Fair Value Measurement and Application*, effective for the District's fiscal year beginning July 1, 2015. This Statement defines fair value and describes how fair value should be measured, what assets and liabilities should be measured at fair value, and what information about fair value should be disclosed in the notes to the financial statements. Refer to footnote 3 for further discussions on the District's adoption of the provisions of this Standard.

LOS ANGELES COMMUNITY COLLEGE DISTRICT

Notes to Basic Financial Statements

June 30, 2016 and 2015

In June 2015, the GASB issued Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles (GAAP) for State and Local Governments*, effective for the District's fiscal year beginning July 1, 2015, and should be applied retroactively. This Statement reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within a source of authoritative GAAP. This standard did not have a material impact on the District's financial statements.

In December 2015, the GASB issued, and the District adopted the provisions of, Statement No. 79, *Certain External Investment Pools and Pool Participants*, effective for the District's fiscal year beginning July 1, 2015. The District did not implement the provisions related to portfolio quality, custodial credit risk, and shadow pricing (paragraphs 18, 19, 23 26, and 40) as these provisions are effective for the fiscal year ending June 30, 2017. The portion of the District's investments recorded at cost is deemed immaterial to these financial statements.

(ii) *To Be Implemented in Future Periods*

In June 2015, the GASB issued Statement No. 75, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, effective for the District's fiscal year beginning July 1, 2017. This Statement establishes how government employers should measure, recognize, display, and disclose the long-term obligations and annual costs arising from their promises to provide other postemployment benefits to their retired employees. The District has not yet determined the impact of GASB Statement No. 75 on the District's financial statements.

In August 2015, the GASB issued Statement No. 77, *Tax Abatement Disclosures*, effective for the District's fiscal year beginning July 1, 2016. This Statement requires governments that enter into tax abatement agreements to disclose these agreements. The District has not yet determined the impact of GASB Statement No. 76 on the District's financial statements.

In December 2015, the GASB issued Statement No. 78, *Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans*, effective for the District's fiscal year beginning July 1, 2016. This Statement narrows the scope of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, by excluding pensions provided to employees of state or local governmental employees through cost-sharing multiemployer defined benefit pension plan meeting certain criteria. The District has not yet determined the impact of GASB Statement No. 76 on the District's financial statements.

In January 2016, the GASB issued Statement No. 80, *Blending Requirements for Certain Component Units*, effective for the District's fiscal year beginning July 1, 2016. The District deemed its component Units to be insignificant for the fiscal year ended June 30, 2016. The District's component units consist of foundations at each of the District's 9 colleges as well as the District foundation.

LOS ANGELES COMMUNITY COLLEGE DISTRICT

Notes to Basic Financial Statements

June 30, 2016 and 2015

In March 2016, the GASB issued Statement No. 81, *Irrevocable Split-Interest Agreements*, effective for the District's fiscal year beginning July 1, 2017. The purpose of this statement is to improve accounting and financial reporting by establishing recognition and measurement requirements for irrevocable split-interest agreements. The District has not yet determined the impact of GASB Statement No. 76 on the District's financial statements.

In March 2016, the GASB issued Statement No. 82, *Pension Issues*, effective for the District's fiscal year beginning July 1, 2017. The purpose of this statement is to amend GASB Statements 67, 68 and 73 and to improve consistency in the application of pension accounting and financial reporting requirements. The District has not yet determined the impact of GASB Statement No. 82 on the District's financial statements.

(iii) *Previously Implemented GASB Standards*

In June 2012, the GASB issued Statement No. 68, *Accounting and Financial Reporting for Pensions*. The District adopted the provisions of the statement effective as of July 1, 2014. Prior to the adoption of Statement No. 68, the District reported pensions under GASB 25, and reported the annual required contribution as a component of employee benefits expense. This statement established standards for measuring and recognizing liabilities, deferred outflows of resources and deferred inflows of resources, and expense/expenditures related to pensions. Statement No. 68 provides requirements for how pension costs and obligations are measured and reported in the basic financial statements. When an organization's pension liability exceeds the pension plan's net position available for paying benefits, there is a net pension liability. Governments are now required to report that amount as a liability in their basic financial statements. In addition, the statement requires that projected benefit payments be discounted to their actuarial present value using a single rate that reflects (1) a long-term expected rate of return on pension plan investments to the extent that the pension plan's fiduciary net position is projected to be sufficient to pay benefits and pension plan assets are expected to achieve that rate and (2) a tax-exempt, high-quality municipal bond rate to the extent that the conditions under (1) are not met. Implementation of Statement No. 68 resulted in additional pension obligations as well as pension expense, and deferred inflows and outflows of resources. In November 2013, GASB issued Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date An Amendment of GASB Statement No. 68*. The statement requires that, at transition to the new accounting standards in accordance with GASB Statement No. 68, a government should recognize a beginning deferred outflow of resources for its pension contributions made after the measurement date of the beginning net pension liability. However, it continues to require that the beginning balances for other deferred outflows and deferred inflows be reported at transition only if it is practical to determine such amounts. The District

LOS ANGELES COMMUNITY COLLEGE DISTRICT

Notes to Basic Financial Statements

adopted the provisions of this statement effective July 1, 2014. As a result, the District has made the following adjustments to restate the net position as of July 1, 2014:

| | |
|--|------------------------------|
| Net position, as previously reported | \$ 743,565,567 |
| Effects of accounting for adoption of GASB Statements No. 68 and 71: | |
| Net pension obligation at beginning of year | (506,673,550) |
| Deferred outflows related to contributions made after the measurement date | <u>31,059,457</u> |
| Cumulative effect of change in accounting | <u>(475,614,093)</u> |
| Net position, as restated | \$ <u><u>267,951,474</u></u> |

(3) Cash and Investments

Cash and investments at June 30, 2016 and 2015 consist of the following:

| | <u>2016</u> | <u>2015</u> |
|--|------------------------------|-----------------------------|
| Cash and cash equivalents in County Treasury | \$ 283,661,406 | 195,606,666 |
| Cash in banks | 42,934,635 | 31,475,876 |
| Total cash and cash equivalents | <u>326,596,041</u> | <u>227,082,542</u> |
| Investments and deposits with trustee: | | |
| Investments in County Treasury | 389,850,061 | 791,600,162 |
| Other | 13,827,425 | 14,539,592 |
| Total investments and deposits with trustee | <u>403,677,486</u> | <u>806,139,754</u> |
| Total cash, and investments and deposit with trustee | \$ <u><u>730,273,527</u></u> | <u><u>1,033,222,296</u></u> |

The District uses fair value measurements to record fair value adjustments to certain assets and liabilities and to determine the fair value disclosures. The fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is best determined based upon quoted market prices. However, in certain instances, there are no quoted market prices for the District's various financial instruments. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including discount rates and estimates of future cash flows. Accordingly, the fair value estimates may not be realized in an immediate settlement of the instrument. The District groups its assets and liabilities measured at fair value in three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value. The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are quoted prices in active markets for identical assets or liabilities that the District has the ability to access at the measurement date.

LOS ANGELES COMMUNITY COLLEGE DISTRICT

Notes to Basic Financial Statements

June 30, 2016 and 2015

- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for the asset or liability. This valuation is accomplished using management's best estimate of fair value, with inputs into the determination of fair value that require significant management judgment or estimation. The level in the fair value hierarchy within which a fair measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

(a) *Cash, cash equivalents and investments in the County Pool*

At June 30, 2016 and 2015, the District's had \$673,511,467 and \$987,206,828 in cash and cash equivalents and investments in the Los Angeles County Treasurer's Pool (the County Pool), respectively. The District reports amounts involuntarily invested in the County Pool as cash and cash equivalents as they function as a demand deposit account for the District and can be withdrawn from the pool without notice or penalty. The District reports amounts voluntarily invested in the County Pool (such as unspent bond proceeds and local property tax collected to pay bond principal and interest) as investments given the potential limitations imposed on withdrawals as well as the weighted average life of the County's Pooled investments.

Statutes authorize the County to invest pooled investments in obligations of the U.S. Treasury, its agencies and municipalities, asset-backed securities, bankers' acceptances, negotiable certificates of deposit, corporate and depository notes, floating rate notes, commercial paper, shares of beneficial interest, repurchase agreements, reverse repurchase agreements, forwards, futures and options, interest rate swaps, securities lending agreements, and supranationals. The State of California Education Code permits the District to maintain a significant investment in the County Pool for the purpose of increasing interest earnings through the County's investment activities.

The Los Angeles County Treasurer's pooled investments are managed by the County Treasurer who reports on a monthly basis to the County Supervisors. In addition, the function of the County Treasury Oversight Committee is to review and monitor the County's investment policy. The committee membership includes the Treasurer and Tax Collector, the Auditor Controller, Superintendent of Schools, Chief Administrative Officer, and a non-County representative. To manage the liquidity in the Treasury Pool while still capturing the higher yield offered by longer maturities, the County's investment guidelines target a portfolio weighted average maturity range between 1.0 and 2.0 years. The weighted average maturity of cash and investments in the County Pool was 1.67 years and 1.63 years at June 30, 2016 and 2015, respectively. To mitigate the risk of securities with longer-term maturities in the investment pool, the Treasurer has limited maturities that exceed one year to 75% of the last three years' average minimum total cash and investment and requires that no more than 50% of the new issuer limits may be used for periods greater than 180 days. The investments in the Los Angeles Treasurer's Pool with maturities that exceeded one year represented 46.94% and 45.11% of the total pool at June 30, 2016 and 2015, respectively.

LOS ANGELES COMMUNITY COLLEGE DISTRICT

Notes to Basic Financial Statements

June 30, 2016 and 2015

Investments held by the County Treasurer are stated at fair value on a recurring basis as required by GASB Statement No. 72, *Fair Value Measurement and Application*. The fair value of underlying actively traded securities in the pool is determined based on current market prices based on the Citibank Valuation Total Report month-end prices. Underlying securities that are not actively traded are priced in accordance with industry pricing standards and include some unobservable inputs. Bond anticipation notes are reported at cost which equates to fair value. The fair value of the District's position in the pool is the same as the value of the total pool shares. The method used to determine the value of participants' equity withdrawn is based on the book value of the participants' percentage participation at the date of such withdrawals. As the District investment is an external pool with the County, these investments are not required to be leveled in the fair value hierarchy.

(b) Other Investments

The District's other investments at June 30, 2016 and 2015 consist of deposits invested with Bank of New York and nonnegotiable certificates of deposit held by the Associated Student Organizations of each campus of \$10,011,213 and \$3,816,212 and \$10,569,864 and \$3,969,728, respectively. The deposits with Bank of New York are reinvested in the County Pool by Bank of New York and accordingly are classified as Level 2 in the fair value hierarchy. Securities such as Commercial Paper and Certificates of Deposit with short maturities and infrequent secondary market trades are typically priced via mathematical calculations and are therefore classified as Level 2 in the fair value hierarchy.

(c) Fair Value Hierarchy

The following table summarizes the District's investments at June 30, 2016 in accordance with the fair value measurement hierarchy:

| <u>Investment type</u> | <u>Fair value</u> | <u>Not required to be leveled</u> | <u>Level 2</u> |
|-------------------------------|-------------------|-----------------------------------|----------------|
| Certificates of deposit | \$ 3,816,212 | — | 3,816,212 |

| | <hr/> | <hr/> |
| Accounts, notes and other receivables, net | \$ <u>72,181,130</u> | <u>76,150,946</u> |

The allowance for doubtful accounts is maintained at an amount sufficient to reserve the possible uncollectible receivable balances. Tax delinquencies represent prior and current year unpaid/uncollected property taxes that were assessed and billed by the County during the 2015-2016 year and prior. The District receives tax revenue from the County biannually in December and April. Any amounts that remain unpaid and not received by the District within the fiscal year are considered delinquent. The County's board of supervisors is the taxing authority that levies and collects tax revenue. Other receivables include Federal, State and Local revenues accrued at year end.

(5) Accounts Payable and Accrued Liabilities

Accounts payable at June 30, 2016 and 2015 are summarized as follows:

(7) Lease Commitments

The District leases various assets, as lessee, under operating and capital lease agreements. Lease payments under these leases (including month-to-month leases) approximating \$6,202,045 and \$6,280,890 for the year ended June 30, 2016 and 2015, respectively, have been reported in the accompanying statements of revenue, expenses, and changes in net position.

(8) Employee Retirement Systems

Qualified employees are covered under multiple-employer defined-benefit pension plans maintained by agencies of the State. Certificated employees are members of the California State Teachers' Retirement System (CalSTRS) and classified employees are members of the California Public Employees' Retirement System (CalPERS). In addition, certificated employees not participating in the State Teachers' Defined Benefit Plan may participate in the California State Teachers' Cash Balance Benefit Program, the Public Agency Retirement Systems (PARS-ARS), or Social Security. On September 2, 2003, the Los Angeles Community College District offered to every adjunct faculty member, who is not a mandatory CalSTRS Defined Benefit Program member, the CalSTRS Cash Balance Benefit Program.

(a) California State Teachers' Retirement System (CalSTRS)

CalSTRS includes full-time certificated employees and hourly adjuncts who permissively elect to participate in CalSTRS, a cost-sharing multiple-employer contributory public employee retirement system defined-benefit pension plan. An actuarial valuation by employer is currently not available. The plan provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries.

Employees, who were hired prior to January 1, 2013, attaining the age of 60 with five years of credited California service (service) are eligible for normal retirement and are entitled to a monthly benefit of 2% of their final compensation for each year of service. Final compensation is defined as the highest average salary earned during three consecutive years of service or highest year if member has more than 25 years of CalSTRS Service Credit. The plan permits early retirement options at age 55 or as early as age 50 with 30 years of service. Disability benefits of up to 90% of final compensation are available to members with five years of service. A family benefit is available if the deceased member had at least one year of service and was an active member or on disability leave. After five years of credited service, members become 100% vested in retirement benefits earned to date. If a member's employment is terminated, only the accumulated member contributions and interest earned on those contributions are refundable.

Notes to Basic Financial Statements

June 30, 2016 and 2015

Under the California Public Employees' Pension Reform Act of 2013 (AB340), effective January 1, 2013, new CalSTRS members are required to be under a new defined-benefit formula of 2% at age 62. The law establishes a limit on compensation that is counted toward calculating a member's pension. New CalSTRS members, starting on or after January 1, 2013, who like existing members, are not covered by Social Security; the initial limit is 120% of 2013 Social Security Wages. It also limits postretirement public employment.

In June 2014, the Legislature passed and the governor signed into law, assembly Bill 1469 which establishes a statutory solution to fully fund the CalSTRS Defined Benefit Program.

CalSTRS projected that, even if the investment portfolio could consistently earn its investment return assumption, the fund would still deplete its assets in about 30 years. Thus, assumed market gains in future years would not be sufficient to address such significant losses. A change in the program funding and contribution rates from all parties was required to reach adequate funding.

The initial increases in employee, employer and state contributions took effect July 1, 2014, and will continue to rise incrementally over the next several fiscal years. Member contribution increases will be phased in over the next three years and increase by an additional 2.25% of payroll for CalSTRS 2% at 60 members, and an additional 1.205% for CalSTRS 2% at 62 members.

Employer contributions will increase from 8.25% to a total of 19.1% of payroll, phased in over the next seven years. The state's total contribution to the Defined Benefit Program as a nonemployer contributing entity will increase incrementally from 3.041% in fiscal year 2013–14 to a total of 6.328% of payroll in fiscal year 2016–17.

Benefit provisions for CalSTRS are established by the State Teachers' Retirement Law (Part 13 of the California Education Code, Section 22000 et seq.). CalSTRS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the annual financial report may be obtained from the CalSTRS website at <http://www.calstrs.com/comprehensive-annual-financial-report>.

State Teachers' Retirement System – Defined Benefit and Cash Balance Benefit Program

On September 2, 2003, Los Angeles Community College District implemented the Cash Balance program and offered it to its adjunct faculty who are not mandatory CalSTRS Defined Benefit Program members. In addition, adjunct faculty have the option of participating in one of the following three retirement plans; CalSTRS Defined Benefit Program, The Public Agency Retirement System (PARS-ARS), or Social Security.

(b) *California Public Employees' Retirement System (CalPERS)*

CalPERS includes full-time classified employees and hourly employees who exceed 1,000 hours in a fiscal year participate in CalPERS, a cost-sharing and agent multiple-employer contributory public employee retirement system defined-benefit pension plan that acts as a common investment and administrative agent for participating public entities within the State. The District participates in an agent and cost-sharing pool within CalPERS. An actuarial valuation by employer is not currently

available. One actuarial valuation is performed for those employers participating in the pool and the same contribution rate applies to each.

Employees, who were hired prior to January 1, 2013, are eligible for retirement at the age of 50 with 5 years of service and are entitled to a monthly benefit of 1.1% of final compensation for each year of service credit. The rate is increased if retirement is deferred beyond the age of 50, up to age 63.

The plan also provides death and disability benefits. Retirement benefits fully vest after five years of credited service. Upon separation from the fund, members' accumulated contributions and interest earned on those funds are refundable through the date of separation.

Under the California Public Employees' Pension Reform Act of 2013 (AB340), effective January 1, 2013, all new miscellaneous (nonsafety) member will be under a new defined benefit formula of a monthly benefit of 2% of their final compensation at age 62, with an early retirement age of 52 and a maximum benefit factor of 2.5% at age 67. Final compensation means the highest average annual pensionable compensation earned by a member during a period of at least 36 consecutive months, or three school years as applicable.

In addition, the following provisions will apply to new CalPERS members:

- Pensionable Compensation Cap – Caps the annual salary that can be used to calculate final compensation for all new School members, at \$118,500 (2016 Social Security Contribution and Benefit Base) for employees that participate in Social Security or \$140,400 (120% of the 2014 Contribution and Benefit Base) for those employees that do not participate in Social Security. Adjustments to the caps are permitted annually based on changes to the CPI for All Urban Consumers.
- Equal Sharing of Normal Cost – For schools employers a new member's initial contribution rate will be at least 50% of the total normal cost rate or the current contribution rate of similarly situated employees, whichever is greater. (Currently PEPRAs members contribute 6% and Non PEPRAs Members 7%).
- The initial increases in employee, employer and state contributions took effect July 1, 2014, and will continue to rise incrementally over the next several fiscal years. Member contribution increases will be phased in over the next three years and increase by an additional 2.25% of payroll for CalSTRS 2% at 60 members, and an additional 1.205% for CalSTRS 2% at 62 members.

Employer contributions will increase from 8.25% to a total of 19.1% of payroll, phased in over the next seven years. The state's total contribution to the Defined Benefit Program as a nonemployer contributing entity will increase incrementally from 3.041% in fiscal year 2013–14 to a total of 6.328% of payroll in fiscal year 2016–17.

The new Pension Reform also prohibits the purchase of nonqualified service credit on or after January 1, 2013 and limits post retirement public employment. CalPERS retirees cannot serve, be employed by or be employed through a contract directly by CalPERS employer unless he or she reinstates.

Public Agency Retirement System – Alternate Retirement System (PARS-ARS)

The Omnibus Budget Reconciliation Act of 1990 (Section 11332) extends the Social Security tax to state and local government employees not participating in a qualified public retirement system. Internal Revenue Code 3121(b)(7)(F) proposed regulations allow employers to establish an alternative retirement system in lieu of Social Security taxes. Such an alternative system was authorized on June 26, 1991 to be established by the end of calendar year 1991 for certain employees not participating in CalSTRS or CalPERS.

On December 4, 1991, the District's board of trustees adopted PARS-ARS, a defined-contribution plan qualifying under Sections 401(a) and 501 of the Internal Revenue Code, effective January 1, 1992, for the benefit of employees not participating in CalSTRS or CalPERS who were employed on that date or hired thereafter. The District has appointed Phase 11 Systems, in which Imperial Trust Company serves as the trustee, to manage the assets of the PARS-ARS plan and serve as the Trust Administrator.

Total contributions to PARS-ARS are 7.50%. The employer contribution is 4.00% and the employee contribution is 3.50%. Contributions are vested 100.00% for employees. Employees can receive their funds after 24 months if they change retirement plans, when they retire, become disabled, or terminate employment. If they die, their beneficiary(s) then get the employee's funds.

(c) Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

As of June 30, 2016, the District reported an aggregate liability of \$519,790,403 for its proportionate share of the CalPERS and CalSTRS net pension liabilities. The net pension liabilities were measured as of June 30, 2015, and the total pension liabilities used to calculate the net pension liabilities were determined based on actuarial valuations as of June 30, 2014. The District's proportion of the CalPERS and CalSTRS net pension liability was calculated based on its proportionate share of total employer contributions to CalPERS and CalSTRS of 1.2381% and 0.5010%, respectively.

(d) Contributions Required and Contributions Made

For fiscal year 2015-16, the District was required by statute to contribute 10.73%, 11.847%, 4.00%, and 4.00% of gross salary expenditures to STRS, PERS (pooled), Cash Balance, and PARS, respectively. Participants are required to contribute 9.20%, 7.00%, 4.00%, and 3.50% of gross salary to STRS, PERS, Cash Balance, and PARS, respectively, for the year ended June 30, 2016. CalPERS participants who were hired prior to January 1, 2013 are required to contribute 7% of gross salary to CalPERS, and CalPERS participants who were hired on or after January 1, 2013 are required to contribute 6% of gross salary to CalPERS in fiscal year 2015-16. As of June 30, 2016, 74.00% and 79.43% of the District's net pension liabilities for CalSTRS and CalPERS are funded, respectively.

(e) Actuarial Methods and Assumptions

The actuarial valuations involve the use of estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. The actuarial calculations are based on the types of benefits provided and the pattern of cost sharing between the District and plan members at the time of each valuation. The projection of these benefits is for financial reporting purposes only and does not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the District and plan members in the future.

(f) Mortality Assumptions

CalSTRS

The mortality assumptions are based on custom mortality tables to best fit the patterns of mortality among its members. These custom tables are based on RP2000 series tables adjusted to fit CalSTRS experience. RP2000 series tables are an industry standard set of mortality rates published by the Society of Actuaries. See CalSTRS July 1, 2006 – June 30, 2010 Experience Analysis for more information, available on the CalSTRS website.

CalPERS

The mortality assumptions are based on mortality rates resulting from the most recent CalPERS Experience Study adopted by the CalPERS Board, first used in the June 30, 2013 valuation. For purposes of the post-retirement mortality rates, the revised rates include 20 years of projected on-going mortality improvements using Scale BB published by the Society of Actuaries. Further details of the Experience Study can be found on the CalPERS website.

(g) **Discount Rate**

CalSTRS

An analysis of future cash flows including contributions, investment returns, administrative expenses, and benefit payments was performed by a CalSTRS external actuary. The actuary determined that CalSTRS assets will be sufficient to pay all future benefit payments. Therefore, a blended discount rate was not used to calculate the NPL at June 30, 2015 and the assumed investment rate of return, gross of administrative expenses, 7.5%, was used to discount all future benefits.

According to Paragraph 30 of Statement 68, the long-term discount rate should be determined without reduction for pension plan administrative expense. The 7.5% investment return assumption used in this accounting valuation is net of administrative expenses. Administrative expenses are assumed to be 10 basis points. An investment return excluding administrative expenses would have been 7.60%. Using this lower discount rate has resulted in a slightly higher total pension liability and net pension liability.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

CalPERS

To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 7.65% discount rate is adequate and the use of the municipal bond rate calculation is not necessary. The stress test results are presented in a detailed report that can be obtained from the CalPERS website.

According to Paragraph 30 of Statement 68, the long-term discount rate should be determined without reduction for pension plan administrative expense. The 7.65% investment return assumption used in this accounting valuation is gross of administrative expenses. The discount rate used for the measurement period ending June 30, 2014 was 7.5% which was net of administrative expenses. This change in assumptions resulted in a deferred inflow for the district of \$11,213,133. This inflow will be recognized in pension expense over the next seven years.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the District for each Plan, calculated using the discount rate for each Plan, as well as what the District's net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

(9) Other Postemployment Benefits (OPEB)

The District provides postemployment healthcare benefits for eligible employees who retire with CalPERS or CalSTRS pension benefits immediately upon termination of employment from the District through the Los Angeles Community College District Postretirement Health Benefits Plan (the Plan). The Plan is a single employer OPEB plan, and obligations of the plan members and the District are based on negotiated contracts with the various bargaining units of the District. The District follows the reporting requirements of GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*.

(a) Plan Description

Retirees receiving a pension from either CalSTRS or CalPERS are eligible for benefits depending on their most recent date of hire and their benefit eligibility service. The District pays a percentage of the eligible retirees' medical, dental, and vision plan premiums as follows:

| | <u>Years of service</u> | <u>Premium paid by district</u> |
|---------------------------------|-----------------------------|-------------------------------------|
| Hire date: | | |
| Before 2/11/1992 | 3 | 100% |
| Between 2/11/1992 and 6/30/1998 | 7 | 100 |
| On or after 7/1/1998 | 10 to less than 15 | 50 |
| On or after 7/1/1998 | 15 to less than 20 | 75 |
| On or after 7/1/1998 | 20 and more | 100 |

The retirement eligibility for CalPERS retirees is a minimum age of 50 and minimum years of service of 5. The retirement eligibility for CalSTRS retirees is a minimum age of 55 and minimum years of service of 5 or a minimum age of 50 with 30 years of service.

LOS ANGELES COMMUNITY COLLEGE DISTRICT

Notes to Basic Financial Statements

June 30, 2016 and 2015

Employees subject to a 2001 agreement between the District and the District's Police Officer's Association may be eligible to receive benefits through Los Angeles County Employees Retirement Association (LACERA) that are paid by the District. Such eligible retirees shall receive medical, dental, and vision benefits. The District pays 100% of LACERA's premiums reduced by 4% for each year of service under LACERA up to 25 years. This reduction only applies to employees with more than 10 years of service under LACERA.

Employees that are not eligible for District paid contributions are still eligible for retiree coverage under California Assembly Bill 528 (AB528). At retirement, such retirees must pay for coverage at a rate based on blended active and retiree costs. As of the latest actuarial study, AB528 retiree contributions are expected to cover all costs; and, accordingly, no liabilities are calculated.

The retirement health benefit continues for the lifetime of a surviving spouse and for other dependents as long as they are entitled to coverage under pertinent eligibility rules.

Currently, the District has about 4,100 active employees who are eligible for postretirement health benefits and about 3,200 retirees and surviving spouses who receive postretirement health benefits.

(b) Actuarial Methods and Assumptions

The actuarial valuations involve the use of estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. The actuarial calculations are based on the types of benefits provided and the pattern of cost sharing between the District and plan members at the time of each valuation. The projection of these benefits is for financial reporting purposes only and does not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the District and plan members in the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the Plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and plan members. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities, and the actuarial value of assets consistent with the long-term perspective of the calculations.

In the July 1, 2015 actuarial valuation, the entry age normal cost method with an open 30-year amortization period as a level percent of pay was used as the cost method to calculate for the annual required contribution (ARC). The actuarial assumptions included a 5.60% blended discount rate based on the assumed long-term return on plan assets and employer assets. A 3.00% wage inflation assumption was used as well as an annual pre-Medicare medical trend rate, Medicare medical trend rate, and dental/vision trend rate of 7.00%, 8.40%, and 4.00%, respectively, initially, reduced by decrements to an ultimate rate of 5.00%, 5.00%, and 4.00%, respectively through at least 2024.

(c) Funding Policy

The contribution requirements are established and may be amended by the District and the District's bargaining units. The required contribution is based on projected pay as you go financing requirements. Additionally, the District's board of trustees adopted a resolution dated April 23, 2008 (com No. BF2) to establish an irrevocable trust with CalPERS to prefund a portion of retiree health benefit costs.

The trust is to be funded with annual contributions by the District of approximately 1.92% of the total full-time salary expenditures in the District. The District deposited \$5,597,042 and \$7,397,472 to the irrevocable trust with CalPERS during FY2016 and FY2015, respectively.

(d) Annual OPEB Costs and Net OPEB Obligation

The District's annual OPEB cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any Unfunded Actuarial Accrued Liability (UAAL) over a period of 30 years. The following table shows the components of the District's OPEB cost for the year, the amount actually contributed to the Plan, and changes in the District's net OPEB obligation to the Plan for the years ended June 30:

| | <u>2016</u> | <u>2015</u> |
|--|----------------------|---------------------|
| Annual required contribution | \$ 42,591,000 | 34,604,000 |
| Interest on net OPEB obligation | 3,865,000 | 4,343,000 |
| Adjustment to annual required contribution | <u>(3,309,000)</u> | <u>(3,439,000)</u> |

(e) Funded Status Information

The District's funding status information is as follows (dollars in thousands (000s omitted)):

| <u>Actuarial valuation date</u> | <u>Actuarial value of assets</u> | <u>Actuarial accrued liability (AAL)</u> | <u>Unfunded AAL (UAAL)</u> | <u>Funded ratio</u> | <u>Covered payroll</u> | <u>UAAL as a percentage of covered payroll</u> |

| July 1, 2013 | 51,823 | 478,320 | 426,497 | 10.83 | 275,000 | 155.09 |

As of June 30, 2016 and 2015, the District has set aside approximately \$62.9 million and \$57.3 million, respectively, in an external trust fund. The fair value of the trust fund as of June 30, 2016 and 2015 was approximately \$83.4 million and \$76.8 million, respectively. Refer to schedule of other postemployment benefit funding progress in Required Supplemental Information on page 45.

(f) Other Benefits

Effective January 1, 2010, the District provided an annual contribution of \$1,500 to benefited active employees and pre-Medicare retirees into a health reimbursement account (HRA) for the next five years. Contributions made by the District are \$6.0 million and \$6.0 million for the fiscal years ended June 30, 2016 and 2015, respectively. This benefit was approved by the Board of Trustee's on November 19, 2014 for a two year extension. This HRA is assumed to sunset on December 31, 2016 with no future contributions after this date for this July 1, 2015 actuarial valuation.

(10) Commitments and Contingencies

The District receives a substantial portion of its total revenue under various governmental grants, all of which pay the District based on reimbursable costs as defined by each grant. Reimbursement recorded under these grants is subject to audit by the grantors. Management believes that no material adjustments will result from the subsequent audit of costs reflected in the accompanying basic financial statements.

The District is a defendant in various lawsuits at June 30, 2016. Although the outcome of these lawsuits is not presently determinable, in the opinion of management, based in part on the advice of counsel, the resolution of these matters will not have a material adverse effect on the basic financial condition of the District or is adequately covered by insurance.

The District has entered into various contracts for the construction of facilities throughout the campuses. At June 30, 2016, the total value of these outstanding commitments is \$473,112,222.

(a) General Obligation Bonds

The voters has passed 3 General Obligation (G.O.) Bond measures which were designed to finance construction, building and equipment acquisition, capital improvement programs for each of the nine colleges and the Educational Service Center and refinance other outstanding debts. On April 10, 2001, the voters of the County passed Proposition A, a \$1.2 billion G.O. Bond measure. On May 20, 2003, the voters of the County passed Proposition AA, a \$980 million G.O. Bond measure. On November 4, 2008, the voters of the County passed Measure J, a \$3.5 billion G.O. Bond measure.

The District has issued to date all the authorized amounts of Proposition A and Proposition AA, and \$2.225 billion of Measure J. The G.O. Bond measures were issued with interest ranging from 2% to 7.53%. The effective interest rate at the financial statement date is 4.96%.

On November 8, 2016, the voters of the County passed Measure CC, a \$3.3 billion G.O. Bond Measure. The District has not issued any bonds authorized by Measure CC. Issuance of bonds against these bonds will begin in fiscal year 2017.

(12) Risk Management

The District is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District is self-insured for up to a maximum of \$1,000,000 for each workers' compensation claim, \$1,000,000 per employment practices claims, and \$1,000,000 for each general liability claim.

The District currently reports all of its risk management activities in the accompanying statements of net position. The balance of all outstanding workers' compensation and incurred general liability claims is estimated based on information provided by an outside actuarial study performed in 2015. The amount of the outstanding liability at June 30, 2016 and 2015 includes estimates of future claim payments for known cases as well as provisions for incurred but not reported claims and adverse development on known cases, which occurred through that date.

Because actual claim liabilities depend on such complex factors as inflation, changes in legal doctrines, and damage awards, the process used in computing claims liability does not necessarily result in an exact amount. Liabilities for incurred losses to be settled by fixed or reasonably determinable payments over a long period of time are reported at their present value using an expected future investment yield assumption of 1.5%.

Changes in the balances of workers' compensation and general liability claims during fiscal years ended June 30, 2016 and 2015 were as follows:

| | 2016 | | | Balance at June 30, 2016 |
|-----------------------|------------------------------------|---|---------------------------|---|
| | Balance at July 1, 2015 | Current year claims and changes in estimates | Claim payments | |

During the years ended June 30, 2016 and 2015, the District made total premium payments of approximately \$3,281,564 and \$3,467,274, respectively, for general liability and property claims.

(13) Subsequent Events

The District evaluated events or transactions that occurred subsequent to the statements of net position date through December 7, 2016, the date the accompanying financial statements were available to be issued.

During FY2017, the District issued new Measure J G.O. Bond Series I for a total of \$300,000,000. The District also issued 2016 G.O. Refunding Bonds for a total of \$177,745,000 to fully refund \$175,000,000 of the Measure J G.O. Bond 2010 Series C. The refunding resulted in an accounting loss of \$23,206,383 which will be recorded as a deferred outflow and will be recognized over the life of the refunded bonds. The aggregate debt service decreased by \$41,849,967 thereby resulting in an economic gain of \$28,818,005.

The Board of Trustees authorized placing a \$3.3B facilities bond, Measure CC on the November 2016 ballot that was passed by the voters on November 8, 2016. The proceeds from these bonds will be used to construct and improve much-needed facilities throughout the nine colleges in the District in order to remain competitive in preparing students for university transfer and jobs in high demand industries.

A. Schedule of Expenditures of Federal Awards and State Financial Awards

(1) Basis of Presentation

The accompanying schedule of expenditures of federal awards (the SEFA) and the schedule of state financial awards present the activity of all federal and state financial assistance programs of the Los Angeles Community College District (the District) for the year ended June 30, 2016. The District's reporting entity is defined in the basic financial statements. All federal financial assistance received directly from federal agencies as well as federal financial assistance passed through other government agencies are included in the SEFA.

The information in the SEFA is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the SEFA presents only a selected portion of the operations of the District, it is not intended to and does not represent the financial position, changes in net assets, or cash flows of the District.

The information in the schedule of state financial awards is presented to comply with reporting requirements of the California Community College Chancellor's Office.

Basis of Accounting

The accompanying SEFA and the schedule of state financial awards are presented using the accrual basis of accounting.

Expenditures on the SEFA are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The District utilizes a negotiated rate for salary and benefits of 32% which management expects to renegotiate upon expiration at June 30, 2017.

(2) Reconciliations to Basic Financial Statements

Amounts reported in the accompanying schedule of state financial awards agree with the amounts reported in the related basic financial statements, in all material respects.

State revenue in fund financial statements:

| | |
|--|-----------------------|
| General Fund | \$ 546,088,979 |
| Special Revenue Funds | 8,297,486 |
| Child Development Fund | 6,320,493 |
| Student Financial Aid Fund | 22,410,208 |

**INDEPENDENT AUDITORS' REPORT ON
STATE COMPLIANCE REQUIREMENTS**

Auditors' Report on State Compliance Requirements

The Honorable Board of Trustees
Los Angeles Community College District
Los Angeles, California:

Report on State Compliance

We have audited the Los Angeles Community College District's (the District) compliance with the types of compliance requirements described in the *California Community Colleges Contracted District Audit Manual (CDAM) 2015-16*, issued by the California Community Colleges Chancellor's Office for the year ended June 30, 2016.

Management Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its state program.

Auditor's Responsibility

Our responsibility is to express an opinion on the District's compliance with the requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *California Community Colleges Contracted District Audit Manual (CDAM) 2015-16*, issued by the California Community Colleges Chancellor's Office. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above could have a direct and material effect on the state programs noted below. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance with the requirements referred to above. However, our audit does not provide a legal determination of the District's compliance with those requirements.

Compliance Requirements

In connection with the audit referred to above, we selected and tested transactions and records to determine the District's compliance with the state laws and regulations applicable to the following items:

Section 421 - Salaries of Classroom Instructors (50 Percent Law)

Section 423 - Apportionment for Instructional Service Agreements/Contracts

Section 424 - State General Apportionment Funding System

Section 425 - Residency Determination for Credit Courses

Section 426 - Students Actively Enrolled

Section 427 - Concurrent Enrollment of K-12 Students in Community College Credit Courses

Section 429 - Student Success and Support Program (SSSP)

Section 430 - Scheduled Maintenance Program

Section 431 - Gann Limit Calculation

Section 435 - Open Enrollment

Section 438 - Student Fees – Health Fees and Use of Health Fee Funds

Section 439 - Proposition 39 Clean Energy

Section 440 - Intersession Extension Program

Section 475 - Disabled Student Programs and Services (DSPS)

Section 479 - To Be Arranged Hours (TBA)

Section 490 - Proposition 1D State Bond Funded Projects

Section 491 - Proposition 30 Education Protection Account Funds

Opinion on State Compliance

In our opinion, Los Angeles Community College District complied, in all material respects, with the types of compliance requirements referred to above that are applicable to the state programs listed above for the year ended June 30, 2016.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance which are required to be reported in accordance with the *California Community Colleges Contracted District Audit Manual (CDAM) 2015-16*, issued by the California Community Colleges Chancellor's Office, and which are described in the accompanying schedule of findings and questioned costs as findings S-2016-001 through S-2016-003. Our opinion on the state programs listed above is not modified with respect to these matters.

The District's responses to the noncompliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The District's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

Report on Other Supplemental Information

We have audited the District's compliance with the types of compliance requirements described in the *California Community Colleges Contracted District Audit Manual (CDAM) 2015-16*, issued by the California Community Colleges Chancellor's Office for the year ended June 30, 2016.

Our audit was conducted in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the *California Community Colleges Contracted District Audit Manual (CDAM) 2015-16*, issued by the California Community Colleges Chancellor's Office. The other supplementary information on pages 72 through 84 is presented for purposes of additional analysis as required by the *CDAM* published by the California Community Colleges Chancellor's Office.

The other supplemental information is the responsibility of management. Such information, except the supplemental information on page 73, has been subjected to the auditing procedures applied to the audit of the District's compliance with the types of compliance requirements described in the *California Community Colleges Contracted District Audit Manual (CDAM) 2015-16*, issued by the California Community Colleges Chancellor's Office, and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting records, financial statements as of and for the year ended June 30, 2016 audited by other auditors, whose report is included herein on pages 1 through 3, and other records, in accordance with auditing standards generally accepted in the United States of America. In our opinion the accompanying other supplemental information is fairly stated, in all material respects, in relation to financial statements taken as a whole, audited by other auditors whose report was dated December 7, 2016.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing over state laws and regulations based on the requirements described in the *California Community Colleges Contracted District Audit Manual (CDAM) 2015-16*. Accordingly, this report is not suitable for any other purpose.

ADDITIONAL REPORTS OF INDEPENDENT AUDITORS'

KPMG LLP
Suite 1500
550 South Hope Street
Los Angeles, CA 90071-2629

Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

The Honorable Board of Trustees:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the Los Angeles Community College District (the District), which comprise the statements of net position as of June 30, 2016, and the related statements of revenues, expenses, and changes in net position and the cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated December 7, 2016.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, identified as FS-2016-001 and FS-2016-002 and described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those

provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The District's Responses to Findings

The District's responses to the findings identified in our audit is described in the schedule of findings and questioned costs. The District's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report of Independent Auditors on Compliance for Each Major Federal Program and on Internal Control Over Compliance Required by the Uniform Guidance

The Honorable Board of Trustees
Los Angeles Community College District
Los Angeles, California

Report on Compliance for Each Major Federal Program

We have audited Los Angeles Community College District's (the District) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2016. The District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the federal statutes, regulations, and the terms and conditions of its federal awards applicable to each of its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, Los Angeles Community College District complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2016.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance with those requirements which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as Findings 2016.001 through 2016.012. Our opinion on each major federal program is not modified with respect to these matters.

The District's responses to the noncompliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The District's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

Report on Internal Control over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified certain deficiencies in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as Findings 2016-001 through 2016-012, that we consider to be significant deficiencies.

The District's responses to the internal control over compliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The District's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Independent Auditors' Report on Schedule of Expenditures of Federal Awards and Schedule of State Financial Awards

The Honorable Board of Trustees
Los Angeles Community College District
Los Angeles, California

Report on the Schedule of Expenditures of Federal Awards and Schedule of State Financial Awards

We have audited the accompanying schedule of expenditures of federal awards and schedule of state financial awards of the Los Angeles Community College District (the District) for the year ended June 30, 2016.

Management's Responsibility for the Schedule of Expenditures of Federal Awards and Schedule of State Financial Awards

Management is responsible for the preparation and fair presentation of the schedule of expenditures of federal awards and schedule of state financial awards in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the schedule of expenditures of federal awards and the schedule of state financial awards that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these schedules based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedule of expenditures of federal awards and schedule of state financial awards are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the schedule of expenditures of federal awards and schedule of state financial awards. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the schedule of expenditures of federal awards and schedule of state financial awards, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the schedule of expenditures of federal awards and the schedule of state financial awards in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the schedule of expenditures of federal awards and schedule of state financial awards. We believe that our audit provides a reasonable basis for our opinion.

Opinion on the Schedule of Expenditures of Federal Awards and Schedule of State Financial Awards

In our opinion, the schedule of expenditures of federal awards and schedule of state financial awards referred to above present fairly, in all material respects, the federal and state expenditures of the Los Angeles Community College District for the year ended June 30, 2016, in conformity with accounting principles generally accepted in the United States of America.

This report is issued in compliance with the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

(2) **Findings Related to the Financial Statements Reported in Accordance with *Government Auditing Standards***

FS-2016-001 – Financial Reporting

Condition and Context

During our review of the District's draft financial statements and the financial reporting process, we noted that a significant number of revisions were required to present the financial statements in accordance with U. S. generally accepted accounting principles. The revisions required were primarily focused on footnotes with complex accounting issues, such as investments and pension plan disclosures. In addition, journal entries prepared by District staff relating to the District's pension plans were not appropriately reviewed or reported in accordance with the applicable framework and guidance. As a result, audit adjustments were necessary to properly state pension plan related accounts.

Cause and Effect

Financial reporting and accounting for governmental entities has increased in complexity during the last several years. The Governmental Accounting Standards Board has recently issued multiple new pronouncements that expanded the requirements of financial reporting and have changed how governments are required to record and report pension liabilities and the fair value of assets and liabilities. These additional pronouncements will likely cause financial reporting personnel within governments to implement new policies and procedures to ensure these new requirements are satisfactorily met, and undergo increased training in order to effectively prepare and review financial statements.

Criteria

A significant deficiency in internal controls is the result of a deficiency in internal controls, or combination of deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with U.S. GAAP such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected. We believe the control deficiency described above represents a significant deficiency in internal controls.

LOS ANGELES COMMUNITY COLLEGE DISTRICT

Schedule of Findings and Questioned Costs

Year ended June 30, 2016

Recommendation

We recommend that the District provide additional training and resources for those responsible for the preparation of the District's financial statements. We also recommend that management enhance their policies to ensure that the financial statements are prepared by individuals knowledgeable of governmental financial reporting requirements and that management develop a more robust review process of the financial statements to ensure accurate financial reporting.

View of Responsible Officials

The District accepts this recommendation and will initiate steps to evaluate the internal findings noted by KPMG and identify opportunities for enhancement noted in the District's staffing and training. The District recognizes the increased complexity government entities face due to new accounting standard imposed in recent years. These new standards require a higher degree of accounting professional development and experience to properly implement.

Toward this end, the District recognizes the need to provide senior-level professional accounting, financial, and administrative support to the CFO in a variety of areas including technical review of periodic and special accounting and financial reports, statements and summaries. Specifically, a management-level position has been created charged with providing technical and functional supervision and training to personnel assigned to financial reporting tasks at the colleges and all units under the direction of the CFO.

The District will ensure that the accounting staff will receive ongoing training.

FS-2016-002: Information Technology

Condition and Context

During our review of the District's information technology controls during the fiscal 2007 audit, we identified control weaknesses in the areas of user access & security, and change management. These included the sharing of user accounts, extensive privileged and super user access and informal change management processes. These issues were determined to be significant deficiencies in the District's system of internal controls. During the 2016 fiscal audit, we evaluated the progress made and the controls implemented to remediate the weaknesses identified during the 2007 audit and determine if we can place reliance on the IT environment and controls.

During our review of the District's General Information Technology controls during the fiscal 2016 audit, we noted that significant progress has been made to address the previously identified security deficiencies. The District implemented Security Weaver, which is a tool used to control access to the SAP environment and monitor user activity of users with privileged access. As such, it appears that privileged access is restricted. Although privileged access has been restricted to authorized users, we noted opportunities for enhancements that can help further reduce the risk of excessive access.

While progress has been made with the implementation of Security Weaver, control weaknesses continue to exist in the form of excessive access to business and functional user accounts. This included extensive access to business users, IT users having functional level access and insufficient segregation of duties. The SAP security issues continue to be significant deficiencies in the District's system of internal controls. As a result, we cannot place reliance on the IT environment and controls.

LOS ANGELES COMMUNITY COLLEGE DISTRICT

Schedule of Findings and Questioned Costs

Year ended June 30, 2016

Cause and Effect

During 2006-07, the District completed post implementation activities for a new Enterprise Resource Planning System (SAP). In addition, in September 2013, the District implemented an SAP wide update. During both the implementation and the update, certain access controls were not fully implemented and certain duties needed to be shared. While not ideal from a control standpoint, this also is not unusual for organizations that must continue to support business operations as complex systems implementations are being completed. However, weaknesses in the IT controls can significantly compromise both the security and accuracy of the data within a system and it is important that adequate controls are implemented.

Criteria

A significant deficiency in internal controls is the result of a deficiency in internal controls, or combination of deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with U.S. GAAP such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected. We believe the control deficiencies described above continue to represent a significant deficiency in internal controls.

Recommendation

As noted above, significant IT issues exist that prevent us from placing reliance on the District's IT environment and controls. Also, opportunities exist to further enhance privileged access to SAP. In order to remediate IT issues and to support the District's plans to expand the use of SAP, KPMG recommends the following action items:

- Perform a security assessment to remediate the extensive segregation of duties conflicts. This includes a thorough review of user profiles, creation of a SOD matrix and role redesign. As SOD conflicts exist at business and functional level, this effort should be led by business managers with IT providing necessary support.
- Evaluate the security designation of privileged user accounts and where possible change the access type to further limit access of IT users. Currently, a few privileged user accounts exist that are used for batch processing functions but require IT users to log in. Although Security Weaver will log activities of the users, by changing the designation of such accounts (from Dialog to Service) IT can further limit the risk of excessive access.

View of Responsible Officials

LACCD Management agrees with the finding and the recommendation that we perform a comprehensive security assessment of the Security Roles in SAP for all LACCD Employees. This will be a joint effort with the Business and Functional owners to ensure that each role is evaluated to eliminate segregation of duties conflicts. This will include the assistance of a third party to help implement best practices and provide a scope of work that can be verified and evaluated once the project is completed. IT will support this effort and help implement the redefined roles and will utilize the Segregation of duties matrix to ensure compliance. We will also convert the few batch accounts to Service accounts to further improve security and limit access to continue to reduce risk.

Finding 2016-001 – Special Tests and Provisions – Borrower Data Transmission and Reconciliation – No Monthly Reconciliation of SAS Data Files to Institution Records and Late Reporting to the Direct Loan Servicing System (DLSS) via Common Origination and Disbursement (COD)

Federal Program Information

Federal Catalog Number: 84.268

Federal Program Name: Student Financial Assistance Cluster: Federal Direct Student Loan (Direct Loan)

Federal Agency: U.S. Department of Education

Pass-Through Entity: N/A

Campus: Los Angeles Pierce College

Federal Award Number and Award Year: OPE ID No. 00122600, July 1, 2015 to June 30, 2016

Federal Direct Student Loan ID: G01226

Criteria or Requirement

Institutions must report all loan disbursements and submit required records to the Direct Loan Servicing System (DLSS) via the COD within 15 days of disbursement (OMB No. 1845-0021). Each month, the COD provides institutions with a School Account Statement (SAS) data file which consists of a Cash Summary, Cash Detail, and (optional at the request of the school) Loan Detail records. The school is required to reconcile these files to the institution’s financial records. Since up to three Direct Loan program years may be open at any given time, schools may receive three SAS data files each month (34 CFR sections 685.102(b), 685.301, and 303).

Identified Condition

During our testing of compliance with special tests and provisions requirements for borrower data transmission and reconciliation for direct loans at Los Angeles Pierce College, we noted that the direct loan reconciliation of the School Account Statement data file received from COD with the District’s records was not prepared for October 2015 and March 2016. In addition we noted that 2 out of 16 direct loan disbursement samples tested were reported late to COD.

Total Direct Loan expenditures for the fiscal year ended June 30, 2015 amounted to \$30,543,852.

Questioned Costs

None.

LOS ANGELES COMMUNITY COLLEGE DISTRICT

Schedule of Findings and Questioned Costs

Year ended June 30, 2016

Possible Asserted Cause and Effect

The District utilizes the Common Origination and Disbursement website to report origination and disbursement of direct loans. Adequate monitoring controls do not appear to be in place to ensure that direct loan disbursements are timely reported to COD and that the required reconciliation of SAS reports with District's records are prepared every month.

Recommendation

We recommend that the District implement stricter controls to ensure that direct loan disbursements are timely reported to COD and that the required reconciliation of SAS reports with District's records are prepared every month.

Views of Responsible Officials and Planned Corrective Actions

The District Central Financial Aid will centralize downloading the SAS reports from COD and run the reconciliation reports monthly for the college. An email notification will be sent when the reconciliation report is available. The College Financial Aid Office will complete the reconciliation process within 15 days from the date the report is generated.

For 2017-18, loan disbursements and reporting in PeopleSoft will be automated to include before and after sequestration disbursements. For 2016-17, the College Financial Aid Office confirms that Fall 2016 disbursements were processed and reported within the required timeframe.

- (1) Property records must be maintained that include a description of the property, a serial number or other identification number, the source of funding for the property (including the FAIN), who holds title, the acquisition date, and cost of the property, percentage of Federal participation in the project costs for the Federal award under which the property was acquired, the location, use and condition of the property, and any ultimate disposition data including the date of disposal and sale price of the property.
- (2) A physical inventory of the property must be taken and the results reconciled with the property records at least once every two years.
- (3) A control system must be developed to ensure adequate safeguards to prevent loss, damage, or theft of the property. Any loss, damage, or theft must be investigated.
- (4) Adequate maintenance procedures must be developed to keep the property in good condition.
- (5) If the non-Federal entity is authorized or required to sell the property, proper sales procedures must be established to ensure the highest possible return.

Identified Condition

During physical inspection, we noted that 1 out of 11 samples selected could not be located. This was noted in the latest physical inventory performed in June 2015. However, the general ledger has not been adjusted to reflect the missing equipment.

Questioned Costs

\$5,177.50 out of \$205,884.61 of equipment sampled for physical inspection

Possible Asserted Cause and Effect

Procedures and controls were not properly implemented to comply with federal requirements and District policies over safeguarding of capital assets, which includes annual review of grant asset management at the College. This increases the risk that theft or misappropriation of program equipment may occur and not be detected on a timely basis.

Recommendation

We recommend that the College strictly enforce existing District policies and procedures to ensure that federal equipment management regulations are followed.

Views of Responsible Officials and Planned Corrective Actions

East Los Angeles College

East Los Angeles College will comply with recommendations accordingly and implement ongoing control policies and procedures for federal equipment management.

In addition, internal staff will continue to do yearly physical inventory of the equipment and reconcile equipment records. One of the 11 samples was not located due to the medical leave of the faculty member.

Year ended June 30, 2016

Identified Condition

During our test of controls and compliance over equipment management, we noted the following control deficiencies and instances of noncompliance:

- 1 out of 3 samples selected for equipment inspection has no LACCD and HE program tags;
- 1 out of 3 samples selected for equipment inspection has no HE program tag;
- 1 out of 3 samples selected for equipment inspection cannot be located; and

There was limited evidence that the results of the physical inventory were reconciled with the District's accounting records (SAP). This is a repeat finding from FY 2015 audit (Finding 2015.005).

Questioned Costs

\$9,615.24 out of \$23,473.08 of equipment sampled for physical inspection

Identified Condition

During our review of payroll charged to the TAACCCT Grant at East Los Angeles College and Los Angeles Trade-Technical College, we noted that:

- For one out of four employees sampled at East Los Angeles College's documentation of the actual time and effort the employee expended on the program was not available; and

For two out of eight employees sampled at Los Angeles Trade Technical College's documentation of the actual time and effort the employee expended on the program was not available.

The other 11 payroll samples (2 from Los Angeles City College, 3 from East Los Angeles College and 6 from Los Angeles Trade-Technical College) had adequate documentation to support salaries and benefits charged to the program.

Questioned Costs

\$9,838.99 out of \$58,308.80 sampled

Possible Asserted Cause and Effect

Adequate monitoring controls do not appear to be in place to ensure proper documentation of employees' actual time and effort to support salaries and related benefits charged to the program. Without proper documentation, these expenditures may be considered unallowable.

Recommendation

We recommend that the District implement stricter controls to ensure compliance with the federal program requirements pertaining to allowable/unallowable expenditures. Actual time and effort that employees spend on grant-funded activities should be properly documented to support salaries charged to the program.

East Los Angeles College

East Los Angeles College has initiated a process to have the “Time and Effort” document completed by all individuals under the LAH3C Grant to ensure compliance with the federal program requirements on allowable/unallowable expenditures. This document will be forwarded by the SFP to each individual at the end of the month to complete and return to the program director for review and signature. Completed copies will be kept in a Time & Effort notebook.

Los Angeles Trade Tech College

In order to ensure compliance with federal program requirements, time and effort reports are submitted by employees under the TAACCCT grant. Per District practice, classroom faculty time is documented by various systems. The class is scheduled and the instructor is then assigned by the Chair and approved by the Dean. The information is then transferred to the payroll system. Absence request forms and absence certification forms are then submitted by the faculty and approved by the Chair, Dean, and Vice President.

Moving forward, all TAACCCT-funded employees—regardless of their function—will complete a time and effort form. Such time and effort forms will be approved by the Chair and the Dean. Upon approval, the forms will be filed by the Program Technician.

Possible Asserted Cause and Effect

The program encountered significant delay in the implementation at the inception of the grant. As with many grants, the first six months were used to set up budgets and contracts, hire personnel, and prepare for full implementation. The hiring process for the lead administrator took longer than expected. During that time, the college focused on activities and deliverables that would create the process and infrastructure for outcomes. If no supplemental procedures are performed aimed at achieving the projected outcomes for the succeeding program years, there is risk that the Consortium will not meet the targeted level of service of the program at the conclusion of the grant.

Recommendation

We recommend that the Consortium continue its outreach and recruitment activities and create more intensive collaborations with different employers, unions, and workforce agencies in accordance with the Statement of Work.

actuals/projections of enrollments & completers submitted to DOL, we are on track to meet such outcomes. In addition, DOL has approved a six month extension. This six month extension expands the program by two additional semesters, giving colleges the opportunity to capture additional enrollments and completers; furthermore, allowing focus on placement and follow up for participants.

Outreach, Lead: Program Director – The program will continue outreach strategies in order to enroll students in accordance to the Statement of Work. Outreach includes, but is not limited to, working with current and new partners such as the WorkSource Center, Employers, Healthcare Associations, and the Adult Education Division of LA Unified School District and LA County Office of Education.

Enrollments & Completers, Lead: Department Chair – LATTC will offer additional sections of classes and ensure schedule gives participants the opportunity to accelerate progression and completion.

Placements, Lead: Program Specialists– Partners like the LA Chamber of Commerce, Health Sector Collaborative, Community Clinic Association of LA County, WorkSource Centers, and the Workforce Investment Board will continue to support job placement strategies by having internships during the program that lead to jobs, prioritizing LAH3C completers for interviews, and continuously sending out job leads. LAH3C is already working on hosting two additional job fairs and has already tentatively scheduled four mock interview session with employers. The development of strategic stacked and latticed certificates will ensure continuing education for participants.

Criteria or Requirement

Title 2, Subtitle A, Chapter II, Part 200, Subpart C, §200.213 Suspension and debarment.

Nonfederal entities are subject to the non-procurement debarment and suspension regulations implementing Executive Orders 12549 and 12689, 2 CFR part 180. These regulations restrict awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs or activities.

Identified Condition

During our test of controls, we noted that there is no documentation or evidence of verification occurring prior to procurement of the suspension and debarment statuses of all vendors tested.

Questioned Costs

Not applicable

Possible Asserted Cause and Effect

Upon audit inquiry with the District personnel, their procurement department has advised the specially funded program (SFP) directors at the campuses that the directors are the ones responsible regarding all the requirements of the program, including verifying the suspension and debarment statuses of the vendors. However, per discussion with campus personnel, the SFP directors who perform procurement procedures were under the impression that the District bears such responsibility. The lack of verification of vendors' statuses prior to procurement increases the risk of transacting with suspended or debarred entities using federal funds.

Recommendation

We recommend that the District communicate clearly and regularly with the campuses as to who shall bear responsibility for verifying the suspension and debarment status of each vendor prior to procurement.

Views of Responsible Officials and Planned Corrective Actions

Los Angeles City College

The District has indicated that there is not an ongoing process to ensure vendors are eligible for participation in Federal activities. Therefore, our corrective action plan is to verify that all future potential vendors are not debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs or activities prior to any procurement of services or goods. The Program Director and Dean will not approve any purchases unless a printout is attached to the quotes.

We will ensure this occurs by following the two steps below:

1. Verifying the eligibility of the vendor via the System for Award Management (SAM) <https://www.sam.gov/portal/SAM/##11>
2. Documenting their eligibility status by keeping a written record of the vendor's status and attaching it to any purchase order/procurement initiation.

Los Angeles Trade Tech College

Although the District verifies suspension and debarment status of each vendor prior to procurement, the District has indicated that there is no ongoing process to ensure vendors are eligible for participation in Federal activities. Thus, LATTC commits to verifying the suspension and debarment status of each vendor prior to procurement. The Program Technician will verify using the Federal Debarred Listing website <https://www.sam.gov> and any other federal resource in which such information can be obtained. The Program Director and Dean will not approve any purchases unless a printout is attached to the quotes.

| <i>Federal Award Number and Award Year:</i> | HG-22706-12-60-A-6, April 2, 2012 to March 31, 2017 |

Criteria or Requirement

Title 2, Subtitle A, Chapter II, Part 200, Subpart E, §200.403 Factors affecting allowability of costs.

Except where otherwise authorized by statute, costs must meet the following general criteria in order to be allowable under Federal awards:

- (a) Be necessary and reasonable for the performance of the Federal award and be allocable thereto under these principles.
- (b) Conform to any limitations or exclusions set forth in these principles or in the Federal award as to types or amount of cost items.
- (c) Be consistent with policies and procedures that apply uniformly to both federally financed and other activities of the non-Federal entity.
- (d) Be accorded consistent treatment. A cost may not be assigned to a Federal award as a direct cost if any other cost incurred for the same purpose in like circumstances has been allocated to the Federal award as an indirect cost.

LOS ANGELES COMMUNITY COLLEGE DISTRICT

Schedule of Findings and Questioned Costs

Year ended June 30, 2016

- (e) Be determined in accordance with generally accepted accounting principles (GAAP), except, for state and local governments and Indian tribes only, as otherwise provided for in this part.
- (f) Not be included as a cost or used to meet cost sharing or matching requirements of any other federally financed program in either the current or a prior period. See also §200.306 Cost sharing or matching paragraph (b).
- (g) Be adequately documented. See also §§200.300 Statutory and national policy requirements through 200.309 Period of performance of this part.

Identified Condition

During our review of payroll charged to the H-1B Job Training Grant at Los Angeles Southwest College during fiscal year 2016, we noted that there was one incident in which a duplicate instructor salary charge occurred.

Questioned Costs

\$7,208.08 out of \$12,797.68 sampled

Possible Asserted Cause and Effect

Adequate monitoring controls do not appear to be in place to ensure that duplicate charging to the program is avoided or detected. This increases the risk that there might be other potential duplicate charges to the grant during the year.

Recommendation

We recommend that the District implement stricter controls to ensure compliance with the federal program requirements on allowable/unallowable expenditures. Expenditures charged to the grant must be regularly reviewed and monitored to ensure that no costs are charged to the program in duplicate.

Views of Responsible Officials and Planned Corrective Actions

Los Angeles Southwest College

The Program plans to institute the following corrective action plan to avoid duplicate charges to the fund.

- The Program Specialist will submit a Journal Voucher (JV) to correct the duplicate charge; extract budget reports on SAP; ask the District accountant to check the charges in the fund; and review an F1 Posting Report to ensure the JV is processed and posted accurately.
- Every month, the Program Specialist and Office Assistant (Program Staff) will extract and review budget reports to monitor its expenditures and record the date.

If the Program Staff are asked to submit a JV, they will not rely on the SD reports provided by an employee from another program. Instead, they will do the following before submitting the JV:

1. Extract a budget report to check if the charges are added to the fund
2. Ask the District accountant to check charges to the fund

LOS ANGELES COMMUNITY COLLEGE DISTRICT

Schedule of Findings and Questioned Costs

Year ended June 30, 2016

3. Ask the campus Senior Administrative Analyst to check if the system self-corrected to the appropriate fund

The responsible officials for this corrective action plan are the CTE and Workforce Development Dean and the SFP Specialist. The date of completion of the plan will be January 3, 2017.

Criteria or Requirement

At Los Angeles Southwest College

Per the Statement of Work, the program will serve 400 unemployed workers in the greater Los Angeles region, 340 (85%) of whom will be long-term unemployed individuals. The Project will focus on serving the low-income communities of South Los Angeles and target unemployed engineers and other unemployed workers who have at least a high school diploma and some post-secondary education and/or related work experience. Priority will be given to veterans and individuals who have been unemployed for 27 weeks or more.

At West Los Angeles College

Per the Statement of Work, the program will serve individuals who fall in one of the following three classifications:

- Individuals who have been without a job for 27 weeks or more and who want and are able to work;

LOS ANGELES COMMUNITY COLLEGE DISTRICT

Schedule of Findings and Questioned Costs

Year ended June 30, 2016

- Individuals who are separate from any branch of the US military (Army, Air Force, Navy, Marines, Coast Guard; and

Individuals who are employed at companies that are part of the project and who need training to (a) secure full-time employment, (b) advance in their careers, or (c) retain their current occupations.

Within these three classifications, particularly the long-term unemployed and veterans, the program will enroll, train, and place a wide variety of individuals including those with barriers to employment such as limited English proficiency, persons 18 year of age and older who have at least a GED or high school diploma and are seeking employment, persons with disabilities, and ex-offenders. The program will provide priority service for veterans and spouses pursuant to The Jobs for Veterans Act (PL 107-288).

Identified Condition

During our test of controls, we noted that controls over eligibility were inadequate at Los Angeles Southwest College. The following control deficiencies were noted:

- There is limited proof that the applications/in-take forms were reviewed to ensure that participants meet the program eligibility requirements;
 - No adequate documentation was maintained to verify high school information; and
- 1 out of 12 sampled participants was not properly classified as long-term unemployed per the report submitted to the grantor.

At West Los Angeles College, we noted that there is limited proof of review of beneficiary eligibility prior to payment of reimbursement to employer and workforce partners.

Questioned Costs

Not applicable

Possible Asserted Cause and Effect

Procedures and controls were not properly designed to comply with the federal requirements over verifying beneficiary eligibility information. Lack of verification and inadequate documentation increase the risk that ineligible individuals can participate into the program. Further, due to inaccurate classification of participants, there is risk that the program will not meet the target number of long-term unemployed individuals due to misreporting.

Recommendation

We recommend that the College properly document procedures performed on reviewing beneficiary participant applications, maintain adequate documentation to verify eligibility information, and revisit participant files to accurately classify long-term unemployed individuals.

Los Angeles Southwest College

The Program plans to institute the following corrective action plan to ensure it maintains adequate documentations to verify eligibility information and accurately classify long-term unemployed individuals.

| Issue | Control | Persons Responsible |
|--|--|---|
| Document the review of participant applications | The Program staff will add a “Staff Only” section on the participant application and will initial and record the date they review it and the eligibility documents. | Program Specialist and Office Assistant |
| Document the verification of high school eligibility requirement | The Program staff will require participants to provide a copy of their high school diploma, GED certificate, or university transcript with the date of graduation and name of high school | Program Specialist and Office Assistant |
| Review participant files to accurately classify long-term unemployed individuals | The Program Office Assistant will check the application fields and database records, especially the long-term unemployed status. She will initial and record the review date on each participant’s application. The Program Specialist will check the participants’ application fields and database records; initial and record the review date; and ask the Office Assistant to make corrections, if necessary. If the Office Assistant makes corrections to the database fields, she will resubmit the data file to the Federal agency during the next quarterly transmission. | Program Specialist and Office Assistant |

The responsible officials for this corrective action plan are the CTE and Workforce Development Dean and the SFP Specialist. The date of completion of the plan will be January 3, 2017.

West Los Angeles College

To ensure substantial proof of beneficiary eligibility, West Los Angeles College will conduct sampling audits to review the sufficiency of documentation of beneficiary eligibility. West Los Angeles review samples of military discharge documents (DD 214), evidence of GED diplomas, and verification of unemployment status through EDD documentation. Every verified participant record will be signed and dated before being referred for payment processing. The responsible official for this corrective action plan is the Vice President of Workforce Education. The date of completion of the plan will be June 30, 2017.

Criteria or Requirement

Title 2, Subtitle A, Chapter II, Part 200, Subpart D, §200.313 Equipment.

- (d) Management requirements. Procedures for managing equipment (including replacement equipment), whether acquired in whole or in part under a Federal award, until disposition takes place will, as a minimum, meet the following requirements:
- (1) Property records must be maintained that include a description of the property, a serial number or other identification number, the source of funding for the property (including the FAIN), who holds title, the acquisition date, and cost of the property, percentage of Federal participation in the project costs for the Federal award under which the property was acquired, the location, use and condition of the property, and any ultimate disposition data including the date of disposal and sale price of the property.
 - (2) A physical inventory of the property must be taken and the results reconciled with the property records at least once every two years.
 - (3) A control system must be developed to ensure adequate safeguards to prevent loss, damage, or theft of the property. Any loss, damage, or theft must be investigated.
 - (4) Adequate maintenance procedures must be developed to keep the property in good condition.
 - (5) If the non-Federal entity is authorized or required to sell the property, proper sales procedures must be established to ensure the highest possible return.

LOS ANGELES COMMUNITY COLLEGE DISTRICT

Schedule of Findings and Questioned Costs

Year ended June 30, 2016

Identified Condition

During our test of controls and compliance over equipment management, we noted the following control deficiencies and instances of noncompliance:

- The unit of equipment inspected has no H-1B program tag; and
Location information is missing from equipment records.

Questioned Costs

Not applicable

Possible Asserted Cause and Effect

Procedures and controls were not properly implemented to comply with federal requirements and District policies over safeguarding of capital assets, which includes asset tagging and updating equipment records with location information. This increases the risk that theft or misappropriation of program equipment may occur and not be detected on a timely basis.

Recommendation

We recommend that the College strictly enforce existing District policies and procedures to ensure that federal equipment management regulations are followed.

Views of Responsible Officials and Planned Corrective Actions

Los Angeles Southwest College

The Program plans to institute the following corrective action plan to ensure it tags its assets and updates equipment records with location information.

| Issue | Control | Persons Responsible |

Finding 2016-010 –Procurement, Suspension and Debarment- Vendor Status Verification

Federal Program Information

Federal Catalog Number: 17.268

Federal Program Name: H-1B Job Training Grants (The Leading Engineering Education for the Future in Los Angeles for Los Angeles Southwest College)

Federal Agency: U.S. Department of Labor

Pass-Through Entity: N/A

Campus: Los Angeles Southwest College

Federal Award Number and Award Year: HG-22706-12-60-A-6, April 2, 2012 to March 31, 2017

Criteria or Requirement

Title 2, Subtitle A, Chapter II, Part 200, Subpart C, §200.213 Suspension and debarment.

Nonfederal entities are subject to the nonprocurement debarment and suspension regulations implementing Executive Orders 12549 and 12689, 2 CFR part 180. These regulations restrict awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs or activities.

Identified Condition

During our test of controls, we noted that there is no documentation or evidence of verification occurring, prior to procurement of the suspension and debarment statuses of all vendors tested.

Questioned Costs

Not applicable

LOS ANGELES COMMUNITY COLLEGE DISTRICT

Schedule of Findings and Questioned Costs

Year ended June 30, 2016

Possible Asserted Cause and Effect

Upon audit inquiry with the District personnel, their procurement department has advised the specially funded program (SFP) directors at the campuses that the directors are the ones responsible regarding all the requirements of the program, including verifying the suspension and debarment statuses of the vendors. However, per discussion with campus personnel, the SFP directors perform procurement procedures under the impression that the District bears such responsibility. The lack of verification of vendors' statuses prior to procurement increases the risk of transacting with suspended or debarred entities using federal funds.

Recommendation

We recommend that the District communicate clearly and regularly with the campuses as to who shall bear responsibility in verifying the suspension and debarment status of each vendor prior to procurement.

Views of Responsible Officials and Planned Corrective Actions

Los Angeles Southwest College

The Program plans to institute the following corrective action plan to ensure it verifies the suspension and debarment statuses of new and current LACCD vendors prior to procurement:

- The Program Specialist and Office Assistant (Program staff) will look up new and current LACCD vendor on the on-line System for Award Management (SAM) prior to procurement.

The Program staff will attach a SAM printout of the vendor's status, verifying that it is not suspended or debarred, along with the date checked, to the Request for Contract Form prior to procurement. If a vendor's status shows suspension or debarment, the Program staff will document the information and will inform the vendor it will be excluded from the program.

The responsible officials for this corrective action plan are the CTE and Workforce Development Dean and the SFP Specialist. The date of completion of the plan will be January 3, 2017.

LOS ANGELES COMMUNITY COLLEGE DISTRICT

Schedule of Findings and Questioned Costs

Year ended June 30, 2016

Criteria or Requirement

Per the Statement of Work, the College has projected levels of outcome for certain performance measures as of the end of the grant. The projections were applicable to two participant categories—unemployed and employed individuals.

| Performance outcomes | Unemployed | Employed |
|--|-------------------|-----------------|
| Total participants served | 500 | 2990 |
| Total participants beginning education/training activities | 425 | 2990 |
| Total participants completing education/training activities | 375 | 2990 |
| Total participants who complete education/training who receive a degree or other type of credential | 375 | 2990 |
| Total participants who complete education/training activities who enter unsubsidized employment | 330 | n/a |
| Total participants who complete education/training activities who retain an employed status in the first and second quarters following initial placement | 330 | 2990 |

Identified Condition

During our test of compliance over the level of effort requirements of the program, we noted that the College did not meet the following targets at the conclusion of the grant with regard to unemployed individuals:

| Performance outcomes | Projected performance (unemployed) | | |
|--|---|---------------|-------------------|
| | Goal | Actual | Percentage |
| Total participants served | 500 | 439 | 88% |
| Total participants beginning education/training activities | 425 | 402 | 95% |
| Total participants who complete education/training who receive a degree or other type of credential | 375 | 279 | 74% |
| Total participants who complete education/training activities who enter unsubsidized employment | 330 | 2 | 1% |
| Total participants who complete education/training activities who retain an employed status in the first and second quarters following initial placement | 300 | 76 | 25% |

Questioned Costs

Not applicable

LOS ANGELES COMMUNITY COLLEGE DISTRICT

Schedule of Findings and Questioned Costs

Year ended June 30, 2016

Possible Asserted Cause and Effect

The program primarily focused on serving employed beneficiary participants resulting in the program far exceeding the projected levels of outcome for employed individuals and falling short for unemployed individuals.

Recommendation

We recommend that the College balance out its outreach and recruitment efforts between unemployed and employed individuals and create more intensive collaborations with workforce agencies to meet projected levels of outcome for unemployed individuals.

Views of Responsible Officials and Planned Corrective Actions

West Los Angeles College

West Los Angeles College, in consultation with the grantor will undertake to revise the target goals of serving unemployed participants in light of the apparent under-performance in that area. Additionally, we will seek to redeploy program resources to that target population, and implement interim benchmarks for meeting program goals. The responsible official for this corrective action plan is the Vice President of Workforce Education. The date of completion of the plan will be June 30, 2017.

| <i>Federal Award Number and Award Year:</i> | HG-22731-12-60-A-6, April 2, 2012 to September 30, 2016 |

Criteria or Requirement

Per Title 2, Subtitle A, Chapter II, Part 200, Subpart D, §200.327 Financial reporting and §200.328 Monitoring and Reporting Program Performance, required reports for Federal awards must include all activity of the reporting period, must be supported by applicable accounting or performance records, and should be fairly presented in accordance with governing requirements.

LOS ANGELES COMMUNITY COLLEGE DISTRICT

Schedule of Findings and Questioned Costs

Year ended June 30, 2016

Identified Condition

During our review of the quarterly financial reports submitted to the grantor, we noted that the cumulative recipient share of expenditures is inaccurately reported. The effect is an overstatement of \$135,343. However, the overstatement did not result in noncompliance with the matching requirement of the grant.

Questioned Costs

Not applicable

Possible Asserted Cause and Effect

The recipient share of expenditures consists of two nonfederal resources—matched funds (cash) and leveraged resources (cash and noncash). A portion of the matched funds amounting to \$135,343 was also included in the leveraged resources overstating the total recipient share of expenditures.

Recommendation

We recommend that the College perform a more intensive review of the report and underlying supporting documentations to avoid inaccurate reporting of information.

Views of Responsible Officials and Planned Corrective Actions

West Los Angeles College

West Los Angeles College will work through its Office of Administrative Services to ensure accurate and timely monitoring of expenditures, match requirements and their subsequent financial reporting. S-2016.001 – Concurrent Enrollment of K-12 Students in Community College Credit Courses (Section 427) – Approvals of Students to Attend Courses

State Criteria or Requirement

The governing board of a school district may determine which pupils would benefit from advanced scholastic or vocational work. The intent of this section is to provide educational enrichment opportunities for a limited number of eligible pupils, rather than to reduce current course requirements of elementary and secondary schools, and also to help ensure a smoother transition from high school to college for pupils by providing them with greater exposure to the collegiate atmosphere. The governing board may authorize those pupils, upon recommendation of the principal of the pupil’s school of attendance, and with parental consent, to attend a community college during any session or term as special part-time or full-time students and to undertake one or more courses of instruction offered at the community college level.

References

California Education Code, Section 48800.

Identified Condition

To ensure that K-12 students who were currently enrolled in community college courses had the proper approvals to attend class and could benefit from advanced scholastic or vocational work, we selected a sample of 60 K-12 students enrolled in courses offered by the District. We then ascertained if these students received required approvals from the K-12 school official prior to enrolling in the community college courses.

During our audit we noted the following:

- 10 out of 24 K-12 students sampled from Los Angeles Pierce College were enrolled in courses that were not included in the courses to be taken by the student that were recommended and approved by the school principal in the K-12 supplemental application for admission forms.
- 2 out of 26 K-12 students sampled from East Los Angeles College were enrolled in courses that were not included in the courses to be taken by the student that were recommended and approved by the school principal in the K-12 supplemental application for admission forms.

LOS ANGELES COMMUNITY COLLEGE DISTRICT

Schedule of State Findings and Recommendations

Year ended June 30, 2016

There appeared to be inadequate monitoring by the District to ensure that K-12 students are enrolled only in courses that the school principal recommended and approved for the student.

This is a repeat finding from fiscal year 2015 audit.

Full-Time Equivalent Student (FTES) Impact

- Los Angeles Pierce College: 1.77 FTES exceptions of the 9.95 credit FTES sampled, or 17.75% of the total sample at the campus.
East Los Angeles College: 0.21 FTES exceptions of the 4.25 credit FTES sampled, or 4.84% of the total sample at the campus.

There were no noncredit FTES and noncredit CDCP FTES associated with this finding.

Questioned Costs

\$9,352.73 (1.98 credit FTES exceptions x \$4,723.60 credit FTES reimbursement rate)

Extrapolated Finding

Based on the schedule of FY 2016 FTES claimed for the K-12 students enrolled in credit courses of those campuses where the samples were obtained, the following are the extrapolated FTES for the above finding:

- Los Angeles Pierce College: 76.64 FTES (17.75% x 431.75 total credit FTES claimed for K-12 students taking credit courses at the campus)
East Los Angeles College: 34.93 FTES (4.84% x 721.69 total credit FTES claimed for K-12 students taking credit courses at the campus)

These findings have not been adjusted in the Annual Apportionment Report submitted for the year ended June 30.

Recommendation for Corrective Action

We recommend that the District strengthen controls to ensure that K-12 students who are currently enrolled in community college courses have the proper approval to attend the class in accordance with District policy.

District Response

East Los Angeles College

Effective immediately, East will restrict all enrollment of K-12 students to manual enrollment in person and place enrollment holds on students to restrict online enrollment. K-12 students will be directed to an in-person registration, in which they will either submit an initial K-12 form which would have a listing of the desired courses for immediate enrollment, or submit an updated K-12 form which would list the selected course. East will scan all K-12 forms for staff reference to verify in person registration attempts. East will also start a self-audit in the middle of semester/terms to cross check K-12 forms with actual enrollment and require students with any differences to get an updated K-12 form with the proper course listed.

LOS ANGELES COMMUNITY COLLEGE DISTRICT

Schedule of State Findings and Recommendations

Year ended June 30, 2016

Los Angeles Pierce College

The student information system automatically restricts a K-12 student from enrolling in classes at Pierce until they submit a signed K-12 supplemental form. Once the form is submitted, their hold is lifted and the K-12 student can use the online registration portal to register for class. However, the online Student Information System does not restrict the K-12 student from enrolling in classes that they may not have been approve.

Beginning Winter 2017, the Admissions and Records Office will manually verify that all K-12 students are enrolled in winter 2017 classes they have been approved to take. In cases where the student is enrolled in a class without proper approval, they will need to provide documentation or they will be removed from the class.

Beginning Spring 2017, all K-12 students must register for classes in-person. They will be no longer be able to register online. This will ensure that students are only enrolling in classes they have permission to take. Once they are enrolled in the appropriate class, a restriction hold will be placed on their record again so they will not be able to modify their class schedule online.

S-2016.002 – To Be Arranged Hours (Section 479) –TBA Course Classification

State Criteria or Requirement

TBA Definition: Some courses with regularly scheduled hours of instruction have “hours to be arranged” (TBA) as part of the total contact hours for the course. The TBA portion of the course uses an alternate method for regularly scheduling a credit course for purposes of applying either the Weekly or Daily Census Attendance Accounting Procedures pursuant to California Code of Regulations (CCR), title 5, sections 58003.1 (b) and (c), respectively.

A clear description of the course, including the number of TBA hours required, must be published in the official schedule of classes or addenda thereto.

Specific instructional activities, including those conducted during TBA hours, expected of all students enrolled in the course are included in the official course outline. All enrolled students are informed of these instructional activities and expectations for completion. Failure of the District to comply with the course approval requirements, including having a course outline of record, could result in termination of course approval.

CCR, Title 5, Sections 58102 and 58104

Identified Condition

During the audit testing performed to ensure that apportionment claimed for TBA courses is adequately supported, we noted that:

1 out of 2 TBA courses from Los Angeles Mission College was deemed to be an invalid TBA course. The Spanish 001 Section 7844 course was created to accommodate one student who was not able to enroll in Spanish 7804 due to a time conflict. In addition, the course outline did not include a description of the TBA portion and did not classify the course as TBA. There appeared to be inadequate procedures at Los Angeles Mission College to ensure that the courses are properly classified. Course classification errors will result in FTES per type, weekly, daily and or positive attendance, being inaccurately calculated and reported for funding.

This is a repeat finding from fiscal year 2015 audit.

Full-Time Equivalent Students (FTES) Impact

Los Angeles Mission College: 0.18 FTES exceptions of the 6.48 credit FTES sampled, or 2.72% of the total sample at the campus.

There were no noncredit FTES and noncredit CDCP FTES associated with this finding.

Questioned Costs

\$850.25 (0.18 credit FTES exceptions x \$4,723.60 credit FTES reimbursement rate)

Extrapolated Finding

Based on the schedule of FY 2016 FTES claimed for the TBA portion of credit courses of those campuses where the samples were obtained, the following are the extrapolated FTES for the above finding:

Los Angeles Mission College: 0.23 FTES (2.72% x 8.40 total credit FTES claimed for the TBA courses at the campus)

These findings have not been adjusted in the Annual Apportionment Report submitted for the year ended June 30, 2016.

Recommendation for Corrective Action

We recommend that the District strengthen controls to ensure that TBA courses are properly classified. The District should review courses classified as requiring TBA hours and determine TBA hours that do not meet the definition of Weekly or Daily Census procedure courses. Such courses should be reported as positive attendance courses.

District Response:

Los Angeles Mission College

The following remedy/remedies may be applied. However, Admissions and Records can only make suggestions because sections are created in Academic Affairs.

- One, the college will no longer create special TBA sections for any student, concurrent enrollment or otherwise, due to time conflicts or other special circumstances.
- Two, the college may wish to investigate the use of exempt or “XMPT” classes which, according to our understanding, should not have FTES implications.

Three, the Office of Outreach and Recruitment must submit all concurrent enrollment applications by the deadline to add. This will enable the students to be informed if their schedule of classes needs to be changed.

S-2016.003 – Disabled Student Programs and Services (Section 475) – Advisory Committee Meetings

State Criteria or Requirement

Section 56050, Advisory Committee, states that each district receiving funds pursuant to this subchapter shall establish, at each college in the district, an advisory committee which shall meet not less than once per year.

The advisory committee shall, at a minimum, include students with disabilities and representatives of the disability community and agencies or organizations serving persons with disabilities.

DSPS Implementing Guideline

Identified Condition

We noted that while Los Angeles Pierce College has an Advisory Committee, the committee did not conduct an annual meeting.

This is a repeat finding from fiscal year 2015 audit.

Questioned Costs

Not applicable.

Recommendation for Corrective Action

We recommend that the District strengthen controls to ensure that all colleges comply with the DSPS advisory meeting requirements.

District Response

Los Angeles Pierce College

During the 2015-2016 academic year, leadership of the Special Services office was interrupted when the Associate Dean of Special Services resigned in the middle of December 2015. An Acting Associate Dean was not appointed until February 16, 2016. The Advisory Committee for the Special Services Office is usually convened during the Fall semester. The Acting Associate Dean was not made aware that the Advisory Committee had not met until it was too late in the year to gather the committee together to hold the meeting.

Upon learning that the Advisory Committee had not met, the Acting Associate Dean began efforts to reconstitute the committee and has since scheduled the next Advisory Committee meeting for December 9, 2016. Additionally, the college is preparing to conduct a search for a new Coordinator of Special Services. Once in place, the new Coordinator, in conjunction with college leadership, will ensure that an Advisory Committee meeting will be held annually every fall semester.

SCHEDULE OF PRIOR YEAR FEDERAL AND STATE FINDINGS

LOS ANGELES COMMUNITY COLLEGE DISTRICT

Schedule of Prior Year Federal and State Findings

Year ended June 30, 2016

Except as specified in previous sections of this report, summarized below is the current status of all audit findings reported in the prior year’s schedule of audit findings and questioned costs and of any other as yet unresolved audit finding from previous years:

| Finding Reference | Condition | Current Status | Explanation if not fully implemented |
|--|--|-----------------------|---|
| F-2015.001 Student Financial Assistance Cluster- Special Tests and Provisions – Enrollment Reporting – Inaccurate Reporting of Enrollment Status to National Student Loan Database System | One out of 38 students sampled with changes in enrollment status that occurred during the fiscal year was not accurately reported to NSLDS. The student graduated in Fall 2014 at Los Angeles Valley College but was reported to NSLDS as withdrawn. The District Information Technology Department is responsible for transmitting degree information to the National Clearinghouse. However, further review of Degree Transmission History to the National Clearinghouse indicates that there were no reporting made in January and February 2015. | Implemented. | Not applicable. |
| F-2015.002 Career and Technical Education – Basic Grants to State (Perkins IV) – Allowable Costs/Cost Principles – Payroll Documentation | During our review of payroll charged to the Career and Technical Education – Basic Grants to State (Perkins IV) (CTE) program at East Los Angeles College, we noted that 1 out of 8 employees sampled did not have documentation of the actual time and effort the employee expended on the program. The timesheets that were provided did not reflect that the employee worked on the CTE program during the period tested. | Implemented. | Not applicable. |

The recommendation is partially implemented due to the need to do a full review of all the security roles in the business and functional areas. This will require a project with the business and process owner to resolve the findings. The business owners will review each role to ensure proper segregation of duties. This will result in a redesign of security roles based on business decisions and segregation of duties best practices.</p> |

| | <p>- The attendance rosters provided for 3 TBA courses from Los Angeles City College did not adequately support the number of students claimed by the District.</p> <p>There appeared to be inadequate procedures to ensure that the designation of a course as TBA is communicated to instructors, and that attendance rosters for TBA courses at these campuses are distributed to the instructors at the beginning of the class and returned to Admissions and Records when completed.</p> <p>We also noted that 1 TBA course from Los Angeles Harbor College was deemed invalid TBA course. The History 58 course from Los Angeles Harbor College was an online course that used "TBA" in the schedule to indicate online format. There appeared to be inadequate procedures at Los Angeles Harbor College to ensure that the courses are properly classified. Course classification errors will result in FTES per type, weekly, daily and or positive attendance, being inaccurately calculated and reported for funding.</p> | | |
